ACKNOWLEDGEMENT.

At the outset, I would like to express my profound thanks and indebtedness to Prof. S.K. Gupta, Dean, School of Humanities and Education, Nagaland University, who supervised and guided me in this research project. This work has taken time unduly because of circumstantial reasons. There were also times of exasperation due to its multidisciplinary nature and scanty sources of materials but it was his patience, perseverance and encouragement which succored me immensely. His erudition and wide experience in research work such as this was incalculable.

I am also thankful to all who have taken pains to respond to the Questionnaire Schedules served to them. In a research of this kind where secondary source of information is lacking, one has to depend heavily on information obtained from them. I am also thankful to the pioneer teachers and elder citizens of Ao community who have given me opportunity to interview them to obtain first hand information from their experience.

(iii)
I also express my thanks to Limawabang Aier who has given me hard copy of some of the pictures which I wanted to incorporate in this work. Last but not the least I express my sincere thanks to each and everyone who have offered correction, suggestions and help in the preparation of this thesis. I am thankful to all my well wishers.
