ACKNOWLEDGEMENTS

Words are sometimes hard to find, when you are trying to thank others for something so priceless as loving criticism, considerate helpfulness and valuable guidance. Gratitude and sincerity resemble a spice: too much repel you and too little leave you wanting. Yet, facts must be evidently acknowledged and honest thankfulness unequivocally stated. This is what I have humbly attempted to do here.

This study is a reflection of discerning criticism and seasoned rationale of Dr. S.L. Agarwal, M.S., F.R.C.S., Professor and Head, Department of Surgery, M.L.B. Medical College, Jhansi. Used to call spade a spade his uncompromising standards and masterly guidance set the trend and pace for this work. Without banking upon his unlimited knowledge, I am sure it would have been impossible to complete this task. I find myself perpetually indebted to him.

For Dr. P.K. Jain, M.D., M.N.A.M.S., Assistant professor, Department of Medicine, M.L.B. Medical College, Jhansi, I have a feeling of sincere gratefulness. He has been too kind to help me, even at his personal inconveniences, at every stage of this work. His wise suggestions and time to time advice regarding the intricacies of this work were a source of great encouragement for me.
The sympathetic attitude affectionate and heartening words of Dr. R.P. Kala, M.S., Associate Professor, Department of Surgery, M.L.B. Medical College, Jhansi, constantly provided the confidence and enthusiasm so vital to such a project.

Much of any merit value this work may be found to have is due to the generosity of Dr. D. Pratap, M.S. and Dr. Rajeev Sinha, M.S., Assistant Professors, Department of Surgery, M.L.B. Medical College, Jhansi, in putting their profound knowledge and practical experience at my disposal. I am deeply thankful to both of them for having given me their valuable time and energy. Their constructive criticism and valuable opinions have helped to shape the study to its present form.

At the same time I do not have words to express my feelings for the support extended to me by my parents. They have been always a source of inspirations for me.

Although friends perhaps do not need these words, but I shall be failing in my duty by not mentioning them. My numerous colleagues both departmental and otherwise, all helped me at various stages of this work. Their help is unaccountable.

Mr. P.C. Sachan has worked on the manuscript assiduously. I am sincerely thankful to him for his untiring efforts.

Dated 12th June, 1991.
