ACKNOWLEDGEMENTS

The writer expresses with great pleasure his deep sense of gratitude to Dr. R.M. Pai, Professor of Botany, Marathwada University, for the invaluable help, guidance and encouragement throughout the course of this investigation.

He would like to thank the authorities of Marathwada University for the award of a Junior Research Fellowship and laboratory facilities, which enabled him to complete this study.

He is grateful to Dr. V.N. Naik, Reader in Botany, Marathwada University, for the determination of the species investigated, and to Dr. N.P. Vaikos, Lecturer in Botany, Marathwada University, for his helpful suggestions during the course of this work.

Thanks are also due to Shri V.A. Choudhari for his help in preparation of the illustrations and to Shri M.S. Muraleedharan for typing of the manuscript.

He expresses his heartfelt thanks to his elder brother, Mr. Subhash S. Bansod and his wife Mrs. Sushama S. Bansod, and other members of the family whose inspiration, encouragement, and constant and watchful care enabled him to give off his best to complete this study.
The author regrets to note that two recent publications (both appeared in 1985) have somehow escaped his attention on account of a discrepancy in the library and his taking a teaching assignment. In the interim, the final manuscript of the thesis was already drafted for the press. Due note of these would be taken at the time of publication. The publications are listed below.

MORPHOLOGICAL STUDIES IN THE MONOCOTYLEDONS - VIII

THE AMARYLLIDACEAE, THE HYPOXIDACEAE AND
THE ALSTROEMERIACEAE
