"There is no broad high way in Science and only those can reach its blazing peak who fear not to become tired climbing its rocky paths".

K. Marx

It was Herculean challenge. I felt Pigmy. I would have fled baffled. He made me accept the challenge. He guided me through. He is my Professor and Guide; esteemed Dr. K.C. Panda, Professor and Head of Education, Department of Education, Regional College of Education, Bhubaneswar to whose wealth of enudition, profundity of sagacity, able acumen and inspiring guidance, whatever success this piece of work has achieved, I owe.

I would have digressed, I would have shirked. He taught me to "stick to the goal". He is my loving teacher - The Guide. For him there is no end to my gratefulness.

I was left aimless; paths to 'here and there'. They showed me the line. They are my Principal, Professor and Teachers; revered Prof. Dr. K.C. Singh, Dr. G.B. Kanungo, Dr. M.Q. Khan, Prof. D.C. Chaudhry, Shri D.N. Khadanga and others. I seek their blessings for years to come.

I would have felt forlorn, disheartened - they gave me encouraging company. They are my friends, Dr. M. Panda, Shri M.N. Haque, Shri P.C. Tripathy and others. Thanks will be merely formal.

I am full of gratitude - acknowledgement fails to acknowledge. I have reached a point; it seems it is over; 'The End'. It may sound the end of a beginning or the beginning of an end. I have accepted a 'Challenge' lost or own - I know not. I am grateful

I extend my most sincere heartfelt gratitudes to the 'Blind Children' of different schools in Orissa, whose voice that speaks and sound that smiles through the pages of this volume. Their contribution to this search fulfils a gap - far wide to bridge but far encouraging a promise to keep.

I express my gratitude to Mr. D.K. Dutta for typing the dissertation and Sri B. Ransingh, Programmer, Utkal University Computing Centre for processing the data.

Endearing memory of kind affectionate wishes haunts.....
To that memory, this piece of work I dedicate.
