It is my pleasant duty to acknowledge the heavy debt of gratitude I owe to Dr. R. Rath, M.A. (Patna), Ph.D. (London), Ex. Professor and National Fellow, P.G. Department of Psychology, Utkal University, Vani Vihar, Bhubaneswar for his able guidance, wise counselling, inspiring encouragement, and solid cooperation. If there is anything imperfect and odd, it may be due to the immature manipulation of the present author.

And, I am grateful, too, to members of the P.G. Teaching Department of Psychology, Utkal University for their solid help, extended to me to complete this research.

Last, but not the least, I thank my wife Shailabala and children for their hearty cooperation in my research work.
