Acknowledgement

To have worked under the guidance of my esteemed teacher, Dr. R.S. Sethi, MD, D.C.H, Associate Professor, Department of Pediatrics, M.L.B. Medical College, Jhansi shall remain the greatest fortune that the almighty has bestowed upon me. Despite my inadequacies and stubbornness, my Guide never failed to correct my umpteen follies like a benevolent guardian. For the mortals least experienced like me his immense love and sincerity never let the gravity of my work elude me. His incisiveness, clarity of knowledge, warmth compassion and his optimism shall all remain etched in my memory forever. He continues to be a source of inspiration and serves as an object lesson to all the budding Pediatrician’s in the College, and elsewhere.

Words cannot do full justice in expressing my gratitude to Dr. R.K. Agarwal, MD, (Co-Guide) Professor and Head of Department of Microbiology, M.L.B. Medical College, Jhansi, whose supervision and assistance provided the backbone to this work. I am also deeply indebted to Dr. (Mrs.) Ratna Saxena, M.D., (Co-Guide) Associate Professor, Department of Pathology, M.L.B. Medical College, Jhansi, who inspite of her hectic schedule was always ready to spare her precious time for me. To them, I wish to express my profound sense of gratitude and thanks. It was under their meticulous supervision that this work became a reality.

I find myself greatly indebted to Dr. (Mrs.) Sheela Longia (M.D.), Professor and Head, Department of Pediatrics, M.L.B Medical College, Jhansi, whose uncompromising principles, academic brilliance and unswerving dedication have inspired me in becoming what I am today, and serve as guiding lights to the countless students of our Department.
and College. It is indeed my good fortune to have worked under a stalwart like her.

In no less degree, I owe my sincere thanks to Dr. Anil Kaushik MD, Associate Professor, Department of Pediatrics, M.L.B. Medical College, Jhansi, who remains a testimony to the fact that with great knowledge there comes humanity. I also thank Dr. Lalit Kumar, MD, D.C.H, Assistant Professor, Department of Pediatrics, M.L.B. Medical College, Jhansi, for giving me inspiration and encouragement to complete the present work.

My “Saadar Charan Sparsh” to my parents, love to my sister Preeti, who have helped me tide over all the crucial phases of this work and all through my life. But for their loving care and affection, I may not have been what I am today and this work may not have seen the light of the day. My fiancé Dr. Shubhra, has always been a constant source of inspiration and has relentlessly egged me on to do better. I am also thankful to my juniors Dr. Vivek Jauhari, Dr. Anjali, Dr. Om Shanker Chaurasiya, Dr. Sunil Dagar and Dr. Parul Gupta, who inspite of their enormous work load, were always there to lend a helping hand.

And last, but not the least, I am also thankful to Mr. Praveen Arora (Crux Computers), who worked with me day and night to help me finish this job in time.

And finally, I shall be failing in my duties if I do not thank all the neonates, who were subjects of my work, and all those unnamed persons who were associated with this work.

Dated : 30/10/2004

Dr. Vivek Kumar Chetal.
