ACKNOWLEDGEMENTS

I am extremely grateful to Dr. Adhikari Srikant Dash, Reader, Department of Psychology, Utkal university for his persistent guidance continuous supervision, pains taking effort as well as timely encouragement and consolation during the entire period of the investigation and preparation of this manuscript without which it would have never been possible to bring out this thesis.

I owe a Special thanks to my best friend Dr.(Mrs.) Nibedita Jena, Sr. Lect in Psychology, R.D. Women's College, Bhubaneswar who had initiated me to start this extensive research work, without her encouragement it would never been possible on my part to do this.

I am equally grateful and thankful to Mrs. Asha Lata Mohanty. Sr.Lect in Psychology, Bhadrak College, Bhadrak who had given me ample help assistance and Co-Operation in completing this thesis.

I owe a special debt of gratitude to my husband Sri. Subrat Ku. Sahu Sr. Lect in physics, S.G.Womes's College (M.S.) Rourkela for his constant inspiration and untiring Coperation from the begining to the end.

Last but not the least I am extremely thankful to my eldest daughter Adyasha and youngest daughter Aditi who had shown tremendous patience and endurance as well as have tolerated my absence while I was busy in my research work.

Padmabati Sahoo
