LIST OF CONCEPTUAL TABLES

Table-1: List of the 51 dependent variables of the study.
Table-2: Means of the 51 scores of the four groups.
Table-3: The pair-wise group comparison result using the T-test of all the 51 variables.
Table-4: Results of the Factor Analysis with Orthogonal rotation.
Table-5: Means, SD's F Values of the ANOVA with the probability level of 5 factor scores.
Table-6: Mean score of the seriousness of the problems of the coping Questionnaire of the four groups.
Table-7: Means of the past occurrence of the problems of the coping Questionnaire.
Table-8: Means of the apprehension of the future problems of the coping Questionnaire.
Table-9: Total frequencies of the Resultant/Accompanying emotions of the coping Questionnaire.
Table-10: Means of the Life's change possibility of the Column-5 of the coping Questionnaire.
Table-11: Means of the control over the problems of Column-6 of the coping Questionnaire.
Table-12: Frequencies of the coping approaches (Column-7) of the coping Questionnaire for the 10 coping approaches of the four groups.
