

To my elder brothers

Ramanath & Jayanta

thank my friends and others who have helped me in one way or other. Special thanks to Dipak (He has truly been a good listener to my lectures, be it related to physics, or my frequent lectures on one of my favorite topics "cricket" !), Biswarup (I have learned few tips from him how to organize a thing which apparently seems to be not organizable) and Debasis (He and Soma have always been nice to me in giving me useful suggestions whenever I have approached to them.)

I am also thankful to all the staff members of the library and the people who have maintained the excellent computing facilities at IoP. My thanks goes to all the administrative and the non-academic staff for their support, co-operation and help at every stage.

My sincere regards and respect are due to my university teachers Prof. B. Ghosh and Prof. N. Dasgupta for their encouragement to pursue research work.

My humble regard and respect goes to my mother and to my elder brothers for their patience during my research period. It is because of their love, affection and blessing I could overcome any difficulty during my research period at IoP. Special thanks to my elder brother Ramanath for his constant inspiration and support whenever required.

(Biswanath Layek)
