ACKNOWLEDGEMENTS

I have inadequate words to express my sincere gratitude to my research guide, the distinguished malacologist, Dr. Uday H. Mane, Reader, Department of Zoology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad. He remains the main foundation of inspiration to me as he suggested and designed the problem for my research work. He always encouraged me, and gave suggestions and valuable guidance whenever required. It is my great pleasure and privilege to work under his guidance.

For his affectionate and friendly co-operation, I am very much indebted to him. I honestly appreciate his nobility, sincerity and efficiency of tireless working in the research laboratory.

I am also indebted to the Professor and Head, Department of Zoology, Dr. Babasaheb Ambedkar Marathwada University, for providing necessary facilities and co-operation during my research work.

I must record my profound gratitude to Late Ramrao alias Annasaheb Aher, Ex-Chairman of The Deola Education Society, Deola, Tal. Kalwan, Dist. Nasik, for his moral support in the advancement to my academic pursuit.

I also manifest my sincere thanks to our Principal H.R. Aher for his constructive co-operation and extension of the facilities during my research work.

I extend warm thanks towards Dr. B.M. Deore, Dr. Kishor Pawar, Dr. Anjan Sawale, Mr. S.V. pawar, Mr. Sunil Bhamare and Mr. S.S. Bederkar for their co-operation and fruitful discussion on the research problem and constant encouragement.
It is my duty to express most sincere gratitude to my friends and my staff colleagues for their kind co-operation and a positive approach in successfully completing my research work leading to the submission of this thesis.

I must put a word of thanks to the colleagues from the research laboratory Dr. Satish Kulkarni, Dr. Satish Patil, Mr. Rupendra Bhagade, Miss Meena Nagawanshi, Mr. Prasana Yannawar, Mr. Machindra A. Patare and others for their help, whenever needed, and in keeping the laboratory environment very pleasant, enthusiastic during experimental work and during the tenure of the thesis writing. I also express my thanks to a number of other friends, who directly or indirectly assisted and helped me.

It is beyond my reach to find the proper words of expression towards my affectionate parents with humble respect and love, I dedicated this thesis to them. I am very much obliged to my brothers, Mr. Vitthalrao, Mr. Kamalakar and Mr. Nandkishore and other kith and kins. I can not find suitable words to express my gratitude to my sister Mrs. Jaya Pawar and brother-in-law, Mr. Narayanrao Pawar.

Finally, I wish to put on record my sincere gratitude towards my beloved wife Asha Saokar. She carried out all the domestic responsibilities on her shoulder during the time of my research stay in Aurangabad. Without her constant inspiration, encouragement and co-operation and moral booster, it could have been impossible for me to
complete this work. I shall never forget the responsibilities that she carried and fulfilled the requirements of my children, Pritam and Priyanka, during my absence in the home.

A special word of thanks to Mr. Nitin Nikam for his excellent typing, promptness and accuracy, and also to Mr. Chagan Narale for photography.
