Chapter 1 – Introduction
1.1 Oceanic Mixed Layer 1
1.2 Geographic Location and Oceanography of the Study Area 3
1.3 Historical Background and Relevance of Present Work 7

Chapter 2 – Data and Methodology
2.1 Hydrographic Data 12
  2.1.1 Temperature and Salinity Data 12
  2.1.2 Definition of Mixed Layer, Isothermal Layer and Barrier Layer 16
  2.1.3 Nutrient Data 18
  2.1.4 Chlorophyll Data 20
  2.1.5 Hydrographic data for studying effect of meso-scale variability on mixed layer depth 21
  2.1.6 River Runoff Data 22
2.2 Atmospheric Data 23
2.3 Remote Sensing Data 23

Chapter 3 – Seasonal Variability of Mixed Layer and Barrier Layer
3.1 Sea Surface Temperature 25
3.2 Sea Surface Salinity 30
3.3 Mixed Layer Depth 35
3.4 Barrier Layer Thickness 41
Chapter 4 – Atmospheric Forcing and Remote Forcing

4.1 Incoming short wave radiation  
4.2 Net Heat Flux  
4.3 Wind Speed  
4.4 Wind stress curl  
4.5 Evaporation – Precipitation

4.6 Factors controlling the mixed layer variability  
   4.6.1 Spring intermonsoon  
   4.6.2 Summer monsoon  
   4.6.3 Fall intermonsoon  
   4.6.4 Winter monsoon  
   4.6.5 Role of Rossby waves

4.7 Factors controlling the barrier layer thickness  
   4.7.1 Spring intermonsoon  
   4.7.2 Summer monsoon  
   4.7.3 Fall intermonsoon  
   4.7.4 Winter monsoon

Chapter 5 – Eddies and mixed layer variability

5.1 Spring intermonsoon (12 April to 7 May, 2003)  
5.2 Summer monsoon (6 July to 2 August, 2001)  
5.3 Fall intermonsoon (14 September to 12 October, 2002)  
5.4 Winter monsoon (25 November 2005 to 4 January 2006)

Chapter 6 – Nitrate and Chlorophyll

6.1 Nitrate  
   6.1.1 Spring intermonsoon  
   6.1.2 Summer monsoon  
   6.1.3 Winter monsoon
