</table>
5.15 Location and Social Responsibility

5.16 Results of Reliability Analysis for Scale Items Measuring Alienation & Locus of Control

5.17 Factor Loadings of Each Measurement Scale Items on Extracted Factors of Alienation & Locus of Control

5.18 Location and Alienation & Locus of Control

5.19 Results of Reliability Analysis for Scale Items Measuring Environmental Concern in Residential Area

5.20 Factor Loadings of Each Measurement Scale Items on Extracted Factors of Environmental Concern in the Place of Residence

5.21 Location and Environment Condition of Residential Area

5.22 Results of Reliability Analysis for Scale Items Measuring Purchase Intention

5.23 Factor Loadings of Each Measurement Scale Items on Extracted Factors of Purchase Intention

5.24 Location and Purchase Intention

5.25 Results of Reliability Analysis for Scale Items Measuring Purchase Behaviour

5.26 Factor Loadings of Each Measurement Scale Items on Extracted Factors of Environmental Problem in the Purchase Behaviour

5.27 Location and Purchase Behaviour

5.28 Education and Awareness

5.29 Education and Eco-Attitude

5.30 Education, Conservation & Cultural values

5.31 Education and Social Responsibility

5.32 Education and Alienation & Locus of control

5.33 Education and Environment Condition of Residential Area

5.34 Education and Purchase Intention

5.35 Education and Purchase Behaviour
5.36 Gender and Awareness
5.37 Gender and Eco-Attitude
5.38 Gender, Conservation and Cultural values
5.39 Gender and Social Responsibility
5.40 Gender and Alienation & Locus of control
5.41 Gender and Environment Condition of Living Area
5.42 Gender and Purchase Intention
5.43 Gender and Purchase Behaviour
5.44 Occupation and Awareness
5.45 Occupation and Attitude
5.46 Occupation and Conservation, Cultural values
5.47 Occupation and Social Responsibility
5.48 Occupation and Alienation & Locus of control
5.49 Occupation and Environment Condition of Residential Area
5.50 Occupation and Purchase Intention
5.51 Occupation and Purchase Behaviour
5.52 Income and Awareness
5.53 Income and Attitude
5.54 Income and Conservation & Cultural values
5.55 Income and Social Responsibility
5.56 Income and Alienation and Locus of Control
5.57 Income and Residential Area
5.58 Income and Purchase Intention
5.59 Income and Purchase Behaviour
5.60 Age and Awareness
6.4 Results of cluster analysis of social responsibility dimensions 197
6.5 Results of cluster analysis of alienation & locus of control from environment 198
6.6 Results of cluster analysis of type of environment around residential area dimensions 198
6.7 Results of Cluster Analysis of Purchase Intentions 199
6.8 Results of cluster analysis of purchase behaviour 199
6.9 Comparison of mean scores of purchase behaviour dimensions across respondents' groups with different level of awareness about solid waste 200
6.10 Comparison of mean scores of purchase behaviour dimensions across respondents' groups with different levels of awareness about recycling 201
6.11 Comparison of mean scores of purchase behaviour dimensions across respondents' groups with different levels of awareness about climate change 202
6.12 Comparison of mean scores of purchase behaviour dimensions across respondents' groups with different levels of awareness about effects of pollution 202
6.13 Comparison of mean scores of purchase behaviour dimensions across respondents' groups with different levels of environmentally friendly attitude about excess packages 203
6.14 Comparison of mean scores of purchase behaviour dimensions across respondents' groups with different levels of attitude towards pollution control responsibility 204
6.15 Comparison of mean scores of purchase behaviour dimensions across respondents' groups with different levels of attitude towards environmental friendly packages 205
6.16 Comparison of mean scores of purchase behaviour dimensions across respondents' groups with different levels of conservation activities 205
6.17 Comparison of mean scores of purchase behaviour dimensions across respondents' groups with different levels of improving status 206
Comparison of mean scores of purchase behaviour dimensions across respondents’ groups with different levels of responsible consumption

Comparison of mean scores of purchase behaviour dimensions across respondents’ groups with different levels of social irresponsibility

Comparison of mean scores of purchase behaviour dimensions across respondents’ groups with different levels of alienation change of habit

Comparison of mean scores of purchase behaviour dimensions across respondents’ groups with different levels of helplessness

Comparison of mean scores of purchase behaviour dimensions across respondents’ groups with different levels of clean surroundings.

Comparison of mean scores of purchase behaviour dimensions across respondents’ groups with different levels of segregation waste

Comparison of mean scores of purchase behaviour dimensions across respondents’ groups with different levels of intention to purchase any package design to reduce solid waste

Comparison of mean scores of purchase behaviour dimensions across respondents’ groups with different levels of intention to spend more for environmentally safe packages

Discriminators of consumers’ purchase intention towards products reducing solid waste

Discriminators of Consumers’ Purchase Intention towards Environmentally Safe Packages

Discriminators of Consumer Intention towards Products with Bio-Degradable Package

Discriminators of Consumer Behaviour in Purchasing Environmentally Safe Packages

Discriminators of consumer behaviour with regard to purchasing any packages
