ACKNOWLEDGMENTS

I would like to express my deepest gratitude to my supervisor, Dr. K. Thyaga Raju, Ph. D., (Penn State, USA), Ex Director DOA (SVU), CDC DEAN (SVU,) Professor in Dept. of Biochemistry, who invited me to join to this scientific journey. Not only for his guidance and support, but also for the amazing opportunities he afforded me that went beyond the realm of my work and which taught me what research in conservation and all about.

I would also like to thank Prof. Ch. Apparao, Head, Dept. of Biotechnology, Prof. S.D.S. Murthy, Chairman, BOS, Dept. of Biochemistry, Prof. O.V.S Reddy, Head, Dept. of Biochemistry and Dr. M. Balaji, Faculty in our department for their integrated efforts along with my research supervisor in establishing and for all comments, opinions and constant help those were so important throughout this work.

I am thankful to Prof. D Sarala Kumari, Head, Dept. of Biochemistry, SK University, Anantapur and Manohar Reddy, AD Handloom and textiles (Rtd), Anantapur for their suggestions and cooperation during the course of my research.

I would like to thank manager of Balaji hatcheries (Chittor) Sri Sundara naidu and Mr. Rafi who were provided fertilized chick eggs for my entire research work. I thank Dr. Venkata Subbaiah DST PURSE, SVU for sharing his expertise while on this exchange.

I can begin to measure the ways in which the members of my laboratory Kamala, Pallavi, Meena, Divya, Venkatswamy, Suman, Namratha Rani and Eshwari have supported and helped me with my research, but I think the most important to me was their friendship.

I am thankful to past and present seniors Dr. Ramesh, Dr. Sailaja, Dr. Ruxana, Dr. Nabi, Dr. Swapna, Vijay Kumar, Vara Kumar, Sreedhara Murthy, Prabhakar, Swarna and Saritha for giving suggestions during the course of my research tenure.

I want to express my acknowledgments to all colleagues and friends of the Biochemistry department Hema, Bhanu, Praveena, Sajeda, Jaya, VijayKumar, Peddanna, Ramya, Anjineyulu, Ramgopal, Hanumakumar, JyothiKumar, Guna, Harika, Arif, Rajesh, Tilak,
Ramesh, Seenu, Muni swamy, Ishmael, Subhan, Naresh and Mahesh. Each one has collaborated with important knowledge that made me to grow up in scientific and also in personal life.

I am thankful to my roommates Kamala and Deepthi received me in this research with so kindness and enormous friendship and their help since initial stage of research and whose support, education, fun, and many cakes will remain with me for a long time.

I am thankful to my friends Suneel kumar, Rajarajeswari, Chandrika, Sudha, Anitha, Supriya, Chandrakala, Lavanya, Prakash, Vishnu, Subbu, Swetha and Divya sahithi always showed affection towards me.

I am thankful to Raghu, Murali (late), Chaitanya, Hari, Gunashekar, Amudha, Sujatha and Chinnabba office staff of Biochemistry department.

I am thankful to Dr. Rani Thyagaraju, Dr. Jyothi, and Rajendra, for the good hospitality during our visits to their house.

I wish to express my deepest gratitude to my grandfather Sri rangappa garu, Sri Oblesh garu, grandmother Smt.Adhilaxmamma garu and Smt.Naagamma garu, Uncles Venu gopal, Nagaraju, Ravi, Manjunath, Muddanna, Adhinarayana and Sriraam Babu Aunties Smt. Alivelamma, Sudha, Anitha, Anasuya, Prameelamma, Saroja and Sharadha Sisters Meena, Vasundhara, Bhavya, Jyothi, Shirisha and Madhavi, Brothers ChandraShekar, Vamshi, Vishnu Chaitanya, Naresh, Bharath, Kondappa, Seenu and Aravind for their affection on me to choose my path for their faith in me and their endless love on me, and has a whole for providing the luxuries which I never craved for …..

I am equally grateful to my sister Sandhya and my Brother-in-law Chidroop with their moral support and sustained encouragement and their epitomy of patience for allowing me to choose my path for their faith in me and their endless love on me, and has a whole for providing the luxuries which I never craved for..

Special thanks are due to my daughter, the little princess Rasagna seeing her growth, smiling and playing gave me all the energy to do work.
I feel there is no word in this world to thank my father Sri Kurumala Chenna Krishna and my mother Smt. Parvathi for their immeasurable love, support and instilling in me an unreal determination and work ethics. I may not have taken a straight path but it was definitely my father guidance.

I am always grateful to DRDO for providing financial support to carry out my research work under DRDO project to pursue my PhD degree.

Above all, God the All Mighty, for granting me the power, strength and ability to complete the study against all odd. Praise the Lord for making me the person what I am today.

DIVYA K
