ACKNOWLEDGEMENTS

A lot of hard work and "sleepless nights" have gone into this work. But obviously this work has reached its final stage only through the active support and encouragement given to me by a host of people.

I owe a deep sense of gratitude to my research supervisors Dr. A.K. Mishra and Professor H.K. Baruah for their unstinting supervision, guidance and encouragement they gave through every stage of this dissertation. Without their help, this work would not have materialized.

I am also particularly grateful to Dr. A.K. Singh, Reader and Head, Deptt. Of Agriculture, Economics and Statistics, SASARD, Medziphema for his guidance and assistance on the many occasions I had approached him.

I would like to thank the Librarian of Nagaland University, Guwahati University and NEHU for access to their respective library. I am grateful to all those who helped and responded to my questionnaire in primary data collection. My thanks are due to my college authority and departmental colleagues for bearing with me through the inconveniences towards the end of my research work.

My sincere gratitude to Mr. Duhüzü, Mr. Roko and Miss Achano for uncomplainingly typing, retyping, printing and reprinting the thesis. I would like to put on record my thanks for their labour that went late into many a night. I am also grateful to the Principal Baptist High, Kohima, for allowing me to use the school computers in typing the thesis. I gratefully acknowledge the continued support and inspiration given to me by my parents, mother-in-law, brothers and sisters.

Finally, I would also like to express my gratitude and appreciation to my wife and the two babies, for relentlessly enduring the struggle all along, which has been a constant source of inspiration and encouragement to me.

Place: Kohima.
Dated: 30.06.2001.
