My debts are great and too many, especially like the debt of God, which I can not even dare to acknowledge, and who bestowed on me the courage to carry out this research work.

It is a golden opportunity and proud privilege to work under the talented and inspiring guidance of Dr. Veena Nagam, Head, Deptt. of H.Sc., Juhari Devi Postgraduate Girls College, Kanpur. Her untiring supervision, persistent encouragement, unending zeal, conspicuous ability and constructive criticism has always been a constant source of my achievement. I am extremely indebted to her for being meticulous throughout our investigation and preparation at this manuscript.

I also bestow my heartfelt thanks and gratitude to Dr. Reetam Singh, Reader Arya Kanya Degree College, Bundelkhand University, Budelkhand, Jhansi and Dr. Meenakshi Singh, Lecturer, Faculty of Home Science, Bundelkhand University, Jhansi for their timely guidance and creative suggestions during the tenure of the present study.

From the inner core of my heart, uncountable words of cordial veneration and gratitude are dedicated to the pious feet of my father Mr. A.K. Shukla and mother Mrs. Pushpa Shukla for their love, affection, good wishes, blessings, constant encouragement and inspiration showered by them for the achievements of my present educational assets. I am also thankful to my elder brother Mayank Shukla who provided moral support timely help and constant inspiration to me during the entire period of my study.

I am getting short of words to express my special regards to my uncles Mr. Saket Pandey, Mr. A.K. Bajpai and aunts Mrs. Laskshmi Pandey and Reeta Bajpai who cooperated me all the time and helped me to overcome my mental tiredness and distress.

It is very difficult task for me to search appropriate words and expressed my sincere appreciation to my friends Romi Mishra and Richa Tiwari.

With the blessings of almighty God, I am presenting this work.
