ACKNOWLEDGEMENTS

The author expresses his deep sense of indebtedness and gratitude to Dr. G.N. Pradeep Kumar, Professor, Department of Civil Engineering, under whose guidance this thesis work has been carried out. No mere words suffice to place on record the intellectual guidance, unrelenting encouragement, productive comments and inspiring discussions with him during the course of this work. The author wishes to record that it is a God given gift to work under him. He in fact has been the source of inspiration for this work.

The author is highly indebted to Prof. J. Karthikeyan, Principal, S.V.U. College of Engineering and Prof. K. Mallikarjuna Rao, Head, Department of Civil Engineering S.V.U. College of Engineering for providing various facilities during this work.

The author would like to place on record the encouragement and support given by management of Tirumala Tirupati Devasthanams and Management and staff of G.V.P.College of Engineering for their kindness in permitting him to pursue doctoral studies at S.V.University, Tirupati. Without them this would have been a distant dream of him.

The author is greatly obliged to Prof. P. Mallikarjuna, Vice Principal, Prof. A.V. Narasimha Rao, Prof. I.V. Ramana Reddy and Prof. M. Sri Murali and other faculty and staff of Department of Civil Engineering., for providing various facilities and kind words of encouragement during the work.

The author owes thanks to Dr. V. Venkateswara Rao, Professor (Retd.,), Dr. T. Venkateswara Rao, Dr. D. Ramprasad Naik and Sri. M. Krishnam Raju, Department of Geo-Engineering, Andhra university for their valuable assistance, advice and suggestions.
The author would like to express his heartfelt thanks to Sri Bhimasankara Rao and Sri K.S. Sastry, Deputy Directors and Sri. R.K.M. Raju, Assistant Director, staff of APSGWB, Rural water supply Department, staff of Chief Planning Officers office, Visakhapatnam for giving their valuable assistance and advice, during the project work.

The timely assistance rendered by Sri. M. Chandramouli, Sri. D. Nukaraju, Geologists, Visakhapatnam, Sri. M. Krishnam Raju, Simahachalam (V), and Sri P. Madhu Kumar, Analyst, Water analysis Lab, RWS department, Visakhapatnam during analysis is unforgettable.

The author wishes to express his heartfelt thanks to Sri. K. R. Gangadhar, other non-teaching staff of Dept. of Civil Engineering for their valuable assistance and support.

The author wishes to express his heartfelt thanks and gratitude to his parents Late C.S.R. Anjaneyulu and Smt. C. Nagamani, for the love and affection bestowed on him over the years and for the tolerance and cheerful dispositions which are vital for sustaining the effort required for completing the thesis work. The author owes special thanks to Sri. C. Srinivas, his Brother for his unforgettable encouragement and support.

The author wishes to express gratefulness to his wife Smt. C. Surya Kumari, for her moral support and affection. Further, he feels rejoiced in recollecting the ‘great’ moral support given by the tiny-tots, Chi. C. Naga Srivalli Prabha and Chi. C.N.A.V.S. Sita Rama by understanding their daddy’s involvement in the work and thereby disturbing him the least.

The author wishes to express his special thanks to his in laws Sri. A. Vyasa Murhty and Smt. A.S. Valli Bramaramba and brother in law Mr. A. Vyasamurhty, for their heartfelt support and encouragement.
Last but not least, the author would like to express his profound gratitude to the authorities of Sri Venkateswara University for according permission to carry out the present work in the Department of Civil Engineering.

C. Janardhana Swamy
