Marijuana Crops are being confiscated in the United States, as well as in Mexico and other countries.

The red and white speckled mushroom *Amanita muscaria* played a major role in the early history of Indo-European and Central American Religions.

Although morning glory seeds were used as religious plants in Mexico before Columbus, the seeds of most types of morning glories available in the United States have little or no hallucinogenic action.
Opium has been extracted from the seed pods of the poppy for thousands of years. Street heroin varies in purity, but it averages only about 5% heroin.

One user helps another “shoot up.” Note the apparent lack of concern about infection. Depression is a serious debilitating disorder that often responds to antidepressant medication.
