ACKNOWLEDGEMENTS

My heartfelt thanks to Dr. G.S. Vinod Kumar, my supervisor, for his constant guidance, insightful ideas and encouragement in my research efforts, without which I could not have completed this work in short time.

On this occasion I commemorate Dr. M.R. Das, Founder Director, RGCB, for being the source of inspiration and motivation.

I am extremely grateful to our Director Dr. M. Radhakrishna Pillai for providing full support and access all the facilities of the institute. I thank our Former Director Dr. R.V. Thampan for extending his support.

I would also like to thank the scientific faculty of RGCB for being there all the time. In particular, I express my gratitude to Dr. K. Santosh Kumar and Dr. Sanil George for providing their valuable advices whenever I approached them.

I could not have completed my work without the support and co-operation of my colleagues. I thank one and all with special mention to Lekha Nair, Suja, Jannet, Ashwani, Mithun, Deepa, John, Ashwathy, Shammy, Ciji, Asha, Jisha, Premjith and Emimol.

I would like to extend my sincere thanks to the Scientists of Sreechitra Thirunal Institute for Medical Science and Technology (SCTIMST), National Institute for Interdisciplinary Science and Technology (NIIST), Thiruvananthapuram and Indian Institute of Science (IISc), Bangalore, for their wholehearted cooperation and support for FTIR, SEM and NMR analysis.

I acknowledge the support and encouragement provided to me by Dr. Asif, Dr. Leena, Sachidanadan, Manoj, Aravind, Deepu, Parveen, Ancy, Suji, Meenakshi, Preeji, Shameem, Abdu, Sanal, Divya, Dhanesh, Reshmi, Sumina, Sameem, Sanoob, Nujoom and Suresh. They had always been a good friend and without their help the way would have been much
more difficult. I extend my heartfelt appreciation and thanks to my friends, and all others for their tremendous help and support.

The support and help provided by the staff of RGCB administration, instrumentation, library, stores, DISC and purchase section, is greatly acknowledged. My special thank to Dilip, Preetha chechi, Jayalakshmi chechi, Priya chechi, Rajashekharan, Sajan, Rahul and Usha madam for their timely help.

I acknowledge Council of Scientific and Industrial Research, Government of India for providing the research fellowships throughout the period of my study. I also thank RGCB and Department of Biotechnology, Government of India, for their financial support.

Finally, I owe my deep sense of gratitude and regard to my beloved parents whose prayers, affection, encouragement, inspiration, patience and support smoothly paved my path towards the successful completion of this research work. My hearty thanks to Savad, Semeena, Samna, Shanavas, Minhaj, Muhsina and Ahsan for their unconditional love, care, affection, motivation, encouragement and support which always energized me during the entire research work.

At this juncture, I humbly bow before the Almighty God for showering His blessings, giving me the strength and wisdom to reach this milestone in my life.

Siyad M A
