

ACKNOWLEDGEMENTS

It is a great pleasure to express my deep sense of gratitude to my research supervisor Dr. G. Vijay Nair, for his guidance and encouragement and to Dr. N.S. Mani for initiating me into the field of research and for suggesting the problem.

I would like to express my gratitude to Dr. A.D. Damodaran, Director, RRL, Trivandrum for providing the necessary facilities to carry out this work.

My sincere thanks are extended to Prof. Uday Maitra of Indian Institute of Science, Bangalore for his wholehearted help in the computational studies. I wish to thank Prof. S. Ranganathan, Dr. J. Madhusudana Rao, Dr. Mangalam S. Nair and Dr. C.S. Narayanan for helpful discussions. Thanks are also due to Dr. K. Gopakumar Warriar for availing the computer facility.

I wish to thank all my colleagues of the Organic Chemistry Division for their help and cooperation. In particular I wish to thank Ms. Jessymol Mathew for her constant support. Also the help given by all others, especially members of the Food Division and Photochemistry Unit is gratefully acknowledged.

My thanks are also due to CSIR, New Delhi, for the financial support during this investigation.

Finally, I wish to express my profound gratitude and respect to my family members for their constant encouragement, immense patience and support throughout my academic career.

Kanakamma P.P.
