ACKNOWLEDGMENTS

It is an immense pleasure to express my deep heartfelt and profound sense of gratitude to my teacher and research supervisor Dr. Y. Munikrishna Reddy, S. S. B. N Degree & PG College, Ananthapuramu for his inspiring and valuable guidance, endless encouragement and keen interest throughout the course of present studies that are mainly responsible for the successful completion of the present work. It is indeed an extraordinary privilege for me to work under his inspiration and indomitable spirit. His enlightened, rich and varied experience helped me very much in understanding the complexities of the subject in the right perspective. He not only enriched my knowledge by his innovative ideas, concepts and suggestions but also gave moral support at various crucial stages from beginning to completion of the present work. I feel I really do not have words to fully express my thanks to him. I also thank his family for their affection.

My sincere and heartfelt acknowledgement is dedicated to my Co-supervisor Prof. R. Padma Suvarna, HOD & Professor, Department of Physics, Jawaharlal Nehru Technological University Anantapur, Ananthapuramu, for her invaluable help and fruitful suggestions. I am deeply grateful to her for the long discussions that helped me sort out the technical details of my work. I am really thankful for her responsible guidance for the completion of this work.

My deepest gratitude and heartfelt thanks to Prof. V. Rajagopal Reddy, Professor, Department of Physics, Sri Venkateswara University, Tirupati for his invaluable help, fruitful suggestions and permitting to utilize his Lab facility. I am highly grateful to him for the long discussions that helped me sort out the technical details of my research work. I am really thankful to him for his constant observation and continuous guidance. Because of his encouragement and support, this work has been completed successfully.

I express my sincere thanks to management, Dr. P V V N Trisula Pani, Principal and Dr. K. Nirmalamma, former Principal, S. S. B. N. Degree & PG College, Ananthapuramu for providing the lab facilities and their timely help for this programme.
I extended my sincere regards to Dr. C. Somasekhara Reddy, Correspondent, Mr. C. Chakradhar Reddy, Director and principal, S.V Degree & P.G College, Ananthapuramu for their support.

I extended my thanks to Dr. K. Gopal Reddy, Lecturer in English and Sri. P.V.R. Sastri, Rtd., Lecturer in English, SSBN Degree & P.G College, Ananthapuramu for their support in making the thesis. I extend my thanks to all my colleagues in the S.V Degree & P.G College, Ananthapuramu who supported for this work.

I express my profound thanks to L. Dasaratha Rao and R. Padma and other members in the Department of Physics, S. V. University, Tirupati, for providing the experimental facilities in the department during my research.

I take this opportunity to thank my research colleague M. N. V. Prasad for his co-operation and timely help during my research work.

My heartfelt regards to my beloved better-half Mss. Y. Mamatha for her unbounded affection, sincerity truthful encouragement. She took more responsibility in order to complete this work. I would like to place on record my deep sense of gratitude to her, with whose constant support and co-operation during this tenure. Because of her lovable encouragement, I completed this work without any interruption also, my lovable and unbounded affection to my lovely son, T. Tanush.

I am indebted to my respected and lovable parents and mother-in-law for their enormous support and strength throughout my research work. Also my sincere thanks extended to all my friends for their support and encouragement.

Finally, my sincere thanks are due to the authorities of Jawaharlal Nehru Technological University (A), Ananthapuramu for providing the necessary facilities to carry out this research work successfully.

T. Lakshmi Narasappa
