Acknowledgement

From the inner core of my soul, I am obliged to whom should be propitiate without oblation other than the one, "GOD ALMIGHTY" due to whose compassion, I have the privilege to conduct the present challenging research work, under kind and erudite, affectionate and lettered guide Dr, Devinder Sharma, Associate professor in commerce HPU-centre of Evening studies-Shimla, because of whose able, sincere, patient, active and worthy guidance and continuous support, I am at the juncture of my academic life. Despite of his busy schedule, he has never felt paucity of time for my work.

I acknowledge with a deep sense of gratitude and appreciation to the faculty members Department of Commerce, Himachal Pradesh University for their valuable comments and guidance during the course of this study. I cannot forget to pay my regard to library faculty of HP University who provided me relevant books for this study.

I owe a special debt of gratitude to the respondent. Without their valuable opinion, this study would not have been completed.

Words seem to be too inadequate while expressing my deep sense of gratitude to my friends for their benevolent support, worthy suggestions, instinctive help and encouragement during the entire period of this study.

No words will be adequate to express my gratefulness to my venerated parents Sh Kedar Dutt Sharma Smt. Brinda Sharma for their sincere blessing and prayers and support. The sacrifices they have made for this study cannot be described in words. I am deeply obliged to my Tayaji Sh. Tara Dutt Sharma for always inspiring and supporting me. With a heavy heart I remember the blessings of my taiji Smt. Satya Sharma who was tragically taken away from us during the course of writing this thesis. Contribution of my other family members during the difficult phase of my research work is unmatched, unparallel and indescribable. They showed patience beyond years to understand my need to work late hours in order to finish my work. And the last but not the least, no amount of gratitude and appreciation is sufficient for my Tayaji Sh S D Sharma and massi Smt Shanti Sharma as my constant companions for years, whose unselfishly and unquestionable support made my heavy task light. They inspired me to exceed myself as I worked on this thesis under their warm and meticulous watch. It would be injustice on my part if I do not acknowledge my gratitude and thanks to the person who has made this script presentable. I acknowledge my special thanks to Mr. Tilak Sharma for immaculately typing and giving final shape to this thesis.

(Seema Sharma)
