LIST OF FIGURES

Fig. 1: Location Map of Nashik City 7
Fig. 2: Location map of sampling site 33
Fig. 3: Calibration curve of Nitrate estimation 53
Fig. 4: Calibration curve of Nitrite estimation 55
Fig. 5: Calibration curve of Phosphate estimation 55
Fig. 6: Calibration curve of Sulphate estimation 59
Fig. 7: Chemical structures of EDTA, Complex and indicator 61
Fig. 8: Calibration curve of Sodium estimation 64
Fig. 9: Calibration curve of Potassium estimation 65
Fig. 10: Average temperature (°C) of water samples at various sampling station (June, 96 to May, 97) 80
Fig. 11: Average seasonal temperature (°C) of water samples at various sampling stations (June 96 to May 97) 80
Fig. 12: Average colour intensity of water samples at various sampling stations (June, 96 to May, 97) 85
Fig. 13: Average seasonal colour intensity of water samples at various sampling stations (June, 96 to May, 97) 85
Fig. 14: Average turbidity (NTU) of water at various sampling stations (June, 96 to May, 97) 90
Fig. 15: Average seasonal turbidity (NTU) of water samples at various sampling stations (June, 96 to May, 97) 90
Fig. 16: Average electrical conductivity (µS/cm) of water samples at various sampling stations (June, 96 to May 97) 94
Fig. 17: Average seasonal electrical conductivity (µS/cm) of water samples at various sampling stations (June, 96 to May, 97) 94
Fig. 18: Average electromotive force (mV) of water samples at various sampling stations (June, 96 to May, 97) 98
Fig. 19: Average seasonal electromotive force (mV) of water samples at various sampling stations (June, 96 to May, 97) 98
Fig. 20: Average total solids (mg/lit) in water samples at various sampling stations (June, 96 to May, 97) 102
Fig. 21: Average seasonal total solids (mg/lit) of water samples at various sampling stations (June, 96 to May, 97) 102
Fig. 22: Average pH of water samples at various sampling stations (June, 96 to May, 97) 107
Fig. 23: Average seasonal pH of water samples at various sampling stations (June, 96 to May, 97) 107
Fig. 24: Average free carbon dioxide (mg/lit) content of water samples at various sampling stations (June, 96 to May, 97) 112
Fig. 25: Average seasonal free carbon dioxide content (mg/lit) of water samples at various sampling stations (June, 96 to May, 97) 112
Fig. 26: Average residual chlorine (mg/lit) in water samples at various sampling station (June, 96 to May, 97) 116
Fig. 27: Average seasonal residual chlorine (mg/lit) in water samples at various sampling stations (June, 96 to May, 97) 116
Fig. 28: Average dissolved oxygen (mg/lit) in water samples at various sampling stations (June, 96 to May, 97) 122
Fig. 29: Average seasonal dissolved oxygen (mg/lit) of water samples at various sampling sites (June, 96 to May, 97) 122
Fig. 30: Average biological oxygen demand (mg/lit) of water samples at various sampling stations (June, 96 to May, 97) 126
Fig. 31: Average seasonal biological oxygen demand (mg/lit) of water samples at various sampling stations (June, 96 to May, 97) 131

Fig. 32: Average chemical oxygen demand (mg/lit) of water samples at various sampling stations (June, 96 to May 97) 131

Fig. 33: Average seasonal chemical oxygen demand (mg/lit) of water samples at various sampling stations (June, 96 to May, 97) 131

Fig. 34: Average seasonal total alkalinity (mg/lit) of water samples at various sampling stations (June, 96 to May 97) 135

Fig. 35: Average total alkalinity (mg/lit) of water samples at various sampling stations (June, 96 to May, 97) 135

Fig. 36: Average nitrate (mg/lit) Level of water samples at various sampling stations (June, 96 to May, 97) 141

Fig. 37: Average seasonal nitrate (mg/lit) of water samples at various sampling stations (June, 96 to May, 97) 141

Fig. 38: Average nitrite (mg/lit) Level of water samples at various sampling stations (June, 96 to May, 97) 145

Fig. 39: Average seasonal nitrite (mg/lit) Level of water samples at various stations (May, 96 to June, 97) 145

Fig. 40: Average phosphate (mg/lit) content of water samples at various sampling stations (June, 96 to May, 97) 149

Fig. 41: Average seasonal phosphate (mg/lit) Level of water samples at various sampling stations (June, 96 to May, 97) 149

Fig. 42: Average sulphate (mg/lit) content of water samples at various sampling stations (June, 96 to May, 97) 153

Fig. 43: Average seasonal sulphate (mg/lit) Level of water samples at various sampling stations. 153

Fig. 44: Average chloride level of water samples at various sampling stations (June, 96 to May, 97) 159

Fig. 45: Average seasonal chloride level of water at various sampling stations (June, 96 to May, 97) 159

Fig. 46: Average total hardness (mg/lit) of water samples at various sampling stations (June, 96 to May, 97) 163

Fig. 47: Average seasonal total hardness (mg/lit) of water samples at various sampling stations (June, 96 to May, 97) 163

Fig. 48: Average total dissolved solids (mg/lit) of water samples at various sampling stations (June, 96 to May, 97) 167

Fig. 49: Average seasonal total dissolved solids (mg/lit) level of water samples at various sampling stations (June, 96 to May, 97) 167

Fig. 50: Average sodium level (mg/it) of water samples at various sampling stations (June, 96 to May, 97) 173

Fig. 51: Average seasonal sodium (mg/lit) Level of water samples at various sampling stations(June, 96 to May, 97) 173

Fig. 52: Average potassium (mg/lit) level of water samples at various sampling stations (June, 96 to May, 97) 174

Fig. 53: Average seasonal potassium (mg/lit) level of water samples at various sampling stations (June, 96 to May, 97) 174

Fig. 54: Average calcium (mg/lit) level of water samples at various sampling stations (June, 96 to May, 97) 178

Fig. 55: Average seasonal calcium (mg/lit) level of water samples at various sampling stations (June, 96 to May, 97) 178

Fig. 56: Average magnesium (mg/lit) level of water samples at various sampling stations (June, 96 to May, 97) 182

Fig. 57: Average seasonal magnesium (mg/lit) level of water samples at various sampling stations (June, 96 to May, 97) 182
Fig. 58: Average lead (mg/ml) in water samples at various sampling stations (June 96 to May 97)

Fig. 59: Average seasonal lead (mg/ml) in water samples at various sampling stations (June 96 to May 97)

Fig. 60: Average copper (mg/ml) in water samples at various sampling stations (June 96 to May 97)

Fig. 61: Average seasonal copper (mg/ml) in water samples at various sampling stations (June 96 to May 97)

Fig. 62: Average iron (mg/ml) in water samples at various sampling stations (June 96 to May 97)

Fig. 63: Average seasonal iron (mg/ml) in water samples at various sampling stations (June 96 to May 97)

Fig. 64: Average zinc (mg/l) of water samples at various sampling sites (June 96 to May 97)

Fig. 65: Average seasonal zinc (mg/l) of water samples at various sampling sites (June 96 to May 97)

Fig. 66: Profiles of biotic (algae and zooplankton) community at various sampling stations in Godavari (June 96 to May 97)

Fig. 67: Average most probable number (MPN) at various sampling stations

Fig. 68: Multiple matrix scattered plot of pollutants

Fig. 69: Concept of pooled pollution level

Fig. 70: Pooled pollution level (PPL) at various sampling stations

Fig. 71: Pooled pollution level along with location map of sampling sites
LIST OF TABLES
Table 1: Climatic condition of Nashik metropolis from 1991 to 1997 .................................. 9
Table 2: Population growth of Nashik city ................................................................. 11
Table 3: Water supply projections for Nashik City ..................................................... 12
Table 4: Slums within 3 km distance from banks polluting river Godavari ................. 18
Table 5: Slums within 3 km distance from banks polluting river Nasardi ................. 19
Table 6: Environmental standards of Indian rivers ..................................................... 24
Table 7: Surface Water Sampling Stations of Godavari River in Nashik region ............ 32
Table 8: Conditions for AAS analysis of Heavy metals ............................................. 69
Table 9: Mc Crady's Probability table ................................................................. 72
Table 10: Characteristics for drinking water ............................................................ 73
Table 11: Temperature (°C) of water samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ................................................................. 78
Table 12: Average seasonal temperature (°C) of water samples at various sampling stations ................................................................. 79
Table 13: Intensity of colour in water samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ................................. 82
Table 14: Average seasonal intensity of colour in water samples at various .................. 83
Table 15: Turbidity (N.T.U.) in water samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ........................................ 88
Table 16: Average seasonal turbidity (N.T.U.) of water samples at various sampling stations ................................................................. 89
Table 17: Electrical conductivity (μS/cm) of water samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ............... 92
Table 18: Average seasonal electrical conductivity (μS/cm) of water samples .......... 93
Table 19: Electromotive force (mV) of water at various sampling stations during the monitoring period (June, 1996 to May, 1997) ........................................ 96
Table 20: Average seasonal electromotive force (mV) of water samples at ......... 97
Table 21: Total solids in water (mg/lit) samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ................................. 100
Table 22: Average seasonal total solids (mg/lit) of water samples ............... 101
Table 23: pH of water samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ................................................................. 105
Table 24: Average seasonal pH of water samples at various sampling stations .......... 106
Table 25: Free carbon dioxide (mg/lit) content of water samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ............... 110
Table 26: Average seasonal free carbon dioxide (mg/lit) content of water samples ........ 111
Table 27: Residual chlorine (mg/lit) content of water sample at various sampling stations during the monitoring period (June, 1996 to May, 1997) ............... 114
Table 28: Average seasonal residual chlorine (mg/lit) content of water sample ........ 115
Table 29: Dissolved Oxygen (mg/lit) in water samples at various sampling stations (June, 1996 to May, 1997) ................................................................. 120
Table 30: Table 3.20: Average dissolved oxygen (mg/lit) of water samples ............ 121
Table 31: Biological oxygen demand (mg/lit) of water samples at various sampling stations (June, 1996 to May, 1997) ................................................................. 124
Table 32: Average seasonal biological oxygen demand (mg/lit) of water samples ........ 125
Table 33: Chemical oxygen demand (mg/lit) of water samples at various sampling stations (June, 1996 to May, 1997) ................................................................. 129
Table 34: Average seasonal chemical oxygen demand (mg/lit) of water samples ....... 130
Table 35: Total alkalinity (mg/lit) of water at various sampling stations during the monitoring period (June, 1996 to May, 1997) ................................................................. 133
Table 36: Average seasonal total alkalinity (mg/lit) of water samples at various sampling stations ................................................................. 134
Table 37: Level of nitrate (mg/lit) in water at various sampling stations during the monitoring period (June, 1996 to May, 1997) ......................... 139
Table 38: Average seasonal Level of Nitrate (mg/lit) in water samples ................................................................. 140
Table 39: Level of nitrite (mg/lit) in water at various sampling stations during the monitoring period (June, 1996 to May, 1997) ......................... 143
Table 40: Average seasonal Level of Nitrite (mg/lit) in water samples at various sampling stations ......................................................... 144
Table 41: Level of phosphate (mg/lit) in water at various sampling stations during the monitoring period (June, 1996 to May, 1997) ......................... 147
Table 42: Average seasonal Level of phosphate (mg/lit) in water samples at various sampling stations ................................................................. 148
Table 43: Level of sulphate (mg/lit) in water sample at various sampling stations during the monitoring period (June, 1996 to May, 1997) ......................... 151
Table 44: Average seasonal Level of sulphate (mg/lit) in water samples at various sampling stations ................................................................. 152
Table 45: Level of chloride (mg/lit) of water at various sampling stations during the monitoring period (June, 1996 to May, 1997) ......................... 157
Table 46: Average seasonal level of chloride (mg/lit) of water samples at various sampling stations ................................................................. 158
Table 47: Level of total hardness (mg/lit) in water samples at various sampling stations during monitoring period .............................................. 161
Table 48: Average seasonal Level of total hardness (mg/lit) in water samples at various sampling stations ................................................................. 162
Table 49: Total dissolved solids (mg/lit) of water samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ......................... 165
Table 50: Average seasonal total dissolved solids (mg/lit) of water samples at various sampling stations ................................................................. 166
Table 51: Level of sodium (mg/lit) of water samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ......................... 169
Table 52: Level of potassium (mg/lit) of water samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ......................... 170
Table 53: Average seasonal Level of sodium (mg/lit) in water samples at various sampling stations ................................................................. 171
Table 54: Average seasonal Level of potassium (mg/lit) in water samples at various sampling stations ................................................................. 172
Table 55: Level of calcium (mg/lit) in water samples at various sampling stations (June, 1996 to May, 1997) ................................................................. 176
Table 56: Average seasonal Level of calcium (mg/lit) in water samples at various sampling stations ................................................................. 177
Table 57: Level of magnesium (mg/lit) in water samples at various sampling stations (June, 1996 to May, 1997) ................................................................. 180
Table 58: Average seasonal level of magnesium (mg/lit) in water samples at various sampling stations ................................................................. 181
Table 59: Level of lead (mg/lit) in water samples at various sampling stations (June, 1996 to May, 1997) ................................................................. 185
Table 60: Level of copper (mg/lit) in water samples at various sampling stations (June, 1996 to May, 1997) ................................................................. 186
Table 61: Level of iron (mg/lit) in water samples at various sampling stations during the monitoring period (June, 1996 to May, 1997) ......................... 187
Table 62: Level of zinc (mg/lit) in water samples at various sampling stations (June, 1996 to May, 1997) ................................................................. 188
Table 63: Average seasonal Level of lead (mg/lit) in water samples at various sampling stations

Table 64: Average seasonal Level of copper (mg/lit) in water samples at various sampling stations

Table 65: Average seasonal Level of iron (mg/lit) in water samples at various sampling stations

Table 66: Average seasonal Level of zinc (mg/lit) in water samples at various sampling stations

Table 67: Most probable number of coliforms in water samples at various sites during the monitoring period (June, 96 to May, 97)

Table 68: Multiple correlation analysis of pollutants

Table 69: Relationship among the physico-chemical and biological parameters of the Godavari river (May, 1996-June, 1997)

Table 70: Pooled pollution level
