Acknowledgement

First of all, I would like to pay my homage to omnipresent almighty Who bestows his benediction upon me and keeps me in high spirit always.

It gives me immense pleasure to extend my deep sense of gratitude and honour to my supervisor Dr. Kulbhushan Chandel, Department of Commerce, Himachal Pradesh University, Shimla, for giving me opportunity to work under their guidance.

I avail myself of this opportunity to express my gratitude to Dr. O.P. Verma, Chairman, Department of Commerce for being a constant source of inspiration and providing me necessary facilities to carry my research work. I wish to express my sincere thanks to Dr. S.S. Narla, Dr. Bal Krishan, Dr. D. R. Gupta, Dr. Sunil Gupta and Dr. Vijay Sharma for their valuable help during the course of this work.

This thesis is culmination of aspirations and inspiration of my parents (Sh. Satish Kumar and Smt. Neelam Sharma), besides the painstaking effort of many people. My hardworking parents have sacrificed their lives for my brother, sister and myself and provided unconditional love and care. I always have my family to count on when times are rough. I gratefully acknowledge the help and cooperation extended by my loving brother Sumit Sharma and sister Ritika Sharma. Needless to mention that without their enthusiastic participation, sacrifices and blessings, this piece of research work could not have been able to see the light of day.

I am grateful to god bestowing me with such affectionate in-laws (Sh. K.K. Sharma and Smt. Satish Kumar) who had been a source of inspiration during this research work and without their persistent moral support it would be impossible for me to carry on this all.
Words fail me to express my appreciation to my soul mate, my husband Dr. Arvind Sharma. I married the best person out there for me. He has been a true and great supporter, great criticizer and has unconditional love during my good and bad time. He has faith in me and my intellect. These past several years have not been an easy ride, both academically and personally. I truly thank my husband for sticking by my side, even when I was irritable and depressed, which shows his unyielding devotion and love.

I am also thankful to the Dr. Niyati Joshi, department of MSME, New Delhi for their co-operation during my research work.

I would like to place on record my sincere thanks to my friends especially Ritu, Mamta, Vipin Rana, Parveen, Reena, Kalpana and Bharti for their whole hearted co-operation, encouragement and their warm hospitality from time to time.

I shall be failing in my duties if I do not mention the invaluable encouragement and timely help received from Mrs. Kanchan Chandel, Siddharth and Swastika.

Last but not the least I am grateful to Sudhanshu Sood, Neelam and Mrs. Sarla Sharma (Sood Book Binder) who took all the pains to type, format and finally give the current shape to the research study. They deserve special thanks, as it would not have been possible to complete this thesis without their help.
