

# Contents

<b>Chapter I Introduction</b> .....	<b>1</b>
1.1 Relevance of topic.....	1
1.2 Spatial Decision Support Systems (SDSS).....	3
1.3 Study area.....	5
1.4 Objective.....	9
1.5 Data.....	9
1.6 Methodology.....	10
1.7 Framework of the thesis.....	12
1.8 Scope of the study.....	13
<b>Chapter II Crop Management Module</b> .....	<b>15</b>
2.1 Introduction.....	15
2.2 Review of literature.....	15
2.2.1 Predicting phenology.....	15
2.2.2 Yield modeling.....	18
2.2.3 Management Practices.....	21
2.3 Data.....	27
2.4 Methodology.....	29
2.4.1 Experimental details.....	31
2.4.2 Phenology modeling using ANN.....	34
2.4.3 Yield modeling using ANN.....	41
2.4.4 Management practices.....	43
2.4.5 Linking the models to GIS.....	44
2.5 Results and discussion.....	47
2.5.1 Phenology model.....	47
2.5.2 Yield Prediction model.....	54
2.5.3 Management practices.....	68
2.5.4 Decision Support for crop management.....	69
<b>Chapter III Water Management Module</b> .....	<b>72</b>
3.1 Introduction.....	72
3.2 Review of literature.....	73
3.3 Data.....	79
3.4 Methodology.....	81
3.4.1 Crop water requirement.....	82
3.4.2 Water deficit and stress index.....	90
3.4.3 Irrigation Schedule.....	91
3.4.4 Influence of water stress on yield.....	95
3.4.5 Validation and sensitivity analysis of VBMODEL.....	97
3.4.6 Statistical methods used for validation.....	98
3.4.7 Sensitivity analysis.....	98
3.4.8 Embedding the models in GIS.....	100

3.5 Results and discussion .....	102
3.5.1 Available water capacity (AWC).....	102
3.5.2 Validation results .....	109
3.5.3 Interaction effects.....	116
3.5.4 Sensitivity analysis.....	117
3.5.5 Decision support for water management .....	120
<b>Chapter IV Land Management Module .....</b>	<b>125</b>
4.1 Introduction.....	125
4.2 Review of literature.....	125
4.3 Data .....	133
4.4 Methodology .....	134
4.4.1 Multicriteria Decision Analysis .....	134
4.4.2 Fuzzy land suitability analysis .....	139
4.4.3 Embedding the land management strategy in GIS.....	146
4.4.4 Crop inventory using remote sensing .....	148
4.5 Results and discussion .....	152
4.5.1 Soil Texture and coarse fragments.....	153
4.5.2 Soil drainage and risk of flooding.....	154
4.5.3 Soil depth .....	154
4.5.4 Organic carbon.....	155
4.5.5 Soil pH and EC .....	155
4.5.6 Slope and erosion hazard .....	156
4.5.7 Limitations of land.....	165
4.5.8 Decision support for land management .....	165
4.5.9 Soybean inventory using remote sensing.....	168
<b>Chapter V Conclusions.....</b>	<b>173</b>
<b>Photographs.....</b>	<b>178</b>
<b>Appendices.....</b>	<b>182</b>
<b>References .....</b>	<b>203</b>
