ACKNOWLEDGEMENT

To have worked under the guidance of my esteemed teacher, Dr. Ashit Shamaheer Sethi, MD, DCM, Assistant Professor, Department of Paediatrics, M.L.B. Medical College, Jhansi shall remain, the greatest fortune that the almighty has bestowed upon me. To him, I wish to express my profound sense of gratitude and thanks. It was under his meticulous supervision, that this work became a reality. His incisiveness, clarity of knowledge, warmth compassion and his optimism shall all remain etched in my memory for ever. He continues to be a source of inspiration and serves as an object lesson to all the budding Paediatricians in the college and elsewhere.

Words cannot do full justice in expressing my gratitude to Dr. R.K. Agarwal, M.D. (Micro), Head, department of Microbiology, M.L.B. Medical College, Jhansi (Co-guide), whose supervision & assistance provided the backbone to this work. Apart from his broad knowledge, what struck me was his humanity. He remains a testimony to the fact that with knowledge there comes humanity.
I find myself greatly indebted to Prof. Ramash Kumar, MD, DCH, Professor & Head, department of Paediatrics, M.L.B. Medical College, Jhansi, whose uncompromising principles, academic brilliance and unswerving dedication have inspired me in becoming what I am today and serve as guiding lights to the countless students of our department and college. It is indeed my good fortune to have worked under a stalwart like him.

In no less degree, I owe my sincere thanks to Dr. (Smt) Sheela Longia, M.D., Associate Professor and Dr. Anil Kaushik, M.D., Assistant Professor, Dept. of Paediatrics, M.L.B. Medical College, Jhansi for giving me inspiration & encouragement to complete the present work.

My "Sadar Charan Sparsh & Namaskar" to my parents, Mama - Nemi ji and Mama-Mamiji, who have helped me tide over all the crisis phases of this work and all through my life. But for their loving care & affection, I may not have been what I am today and this work may not have seen the light of the day. My Bhaiyas & Bhabhi ji, have always been a constant source of inspiration and have relentlessly egged me on to do better. My younger brother Poonam & sister Shivani, who
inspite of their enormous work load, were always there to lend a helping hand.

I am also deeply indebted to Mr. Jwala Singh, Lab. Chemist (Medical), Department of Microbiology, who inspite of his hectic schedule was always ready to spare his precious time for me.

Innumerable thanks to Mr. A.S. Vishwakarma, who smilingly put-up with all my tantrums and idiosyncrasies and has pain stakingly brought out this excellent manuscript.

And finally, I shall be failing in my duties if I do not thank all the kids, who were subjects of my work and all those unnamed persons who were associated with this work.

Dated : November 24, 1992
