Acknowledgement

No task worth the name can ever be accomplished without the proper guidance of the superiors who help in designing the venture and provide necessary infrastructure required for the successful launch and the active cooperation of the colleagues and friends who provide facilities and the atmosphere necessary for the accomplishment.

I take this pleasant and sacred duty to express my sincere and grateful thanks to my guide and supervisor Dr. Sudesh Kumar Garg, Reader, Department of Economics, Himachal Pradesh University, Shimla, who has been a beacon light to me in guiding this thesis to its logical conclusion. His unswerving patronage, his scholarly and enlightening guidance, his constant encouragement facilitated my work and provided me the necessary impetus.

I am equally grateful to my learned friend Sh. Kamal Vatta, Research Officer, Agro-Economic Research Centre, Punjab Agricultural University, Ludhiana who gave me his timely suggestions and valuable advice, which helped in improving considerably the quality of my work.

I am highly indebted to Dr. S.P. Bansal, Chairman, Department of M.T.A. and Dr. Ranveer Singh, Research Officer, Agro-Economic Research Centre, Himachal Pradesh University, Shimla for their valuable guidance, suggestions and constant support towards the completion of this venture.

I shall be failing in my duty if I do not acknowledge my sincere thanks to all the members of my family especially my parents who provided me the much-needed inspiration, congenial and healthy atmosphere imperative for serious studies.

I owe my special thanks and affection to my wife, son and daughter, whose time I had skillfully stolen, for co-operating with me during the completion of this task.

Last but not least is my heartfelt gratitude and thankfulness to the Lord, the Almighty God, who with His benign, benevolence and bountiful blessings made it possible for me to accomplish the task.

Date: November 17, 2004.
