LIST OF FIGURES

Fig. 1.1: Geographical Location of Matla River
Fig. 1.2a: Area under Study
Fig. 1.2b: Mouzas under Study
Fig. 1.3: Administrative Divisions of the Sundarbans

Fig. 2.1: The Sundarbans & the Lower Bengal
Fig. 2.2: Major Archaeological Findings in the Sundarbans
Fig. 2.3: Archaeological Findings of the Main Site

Fig. 3.1: Land Reclamation from 1775 to 2001 in the Sundarbans
Fig. 3.2: Major Source Regions of Migrating Population of the Sundarbans
Fig. 3.3: Forest Cover in 1870
Fig. 3.4: Forest Cover in 1917-1923
Fig. 3.5: Forest Cover in 2006
Fig. 3.6: Distance between River Bank and Embankment in the Northern Part of Matla River, 1917-1923
Fig. 3.7: Construction of Embankment and Subsequent Rise of Tidal Level
Fig. 3.8: Population Density in 1951
Fig. 3.9a: System Component Growth from 1901 to 1951
Fig. 3.9b: System Component Growth from 1951 to 2001
Fig. 3.10a: Population Packing in 1951
Fig. 3.10a: Population Packing in 2001
Fig. 3.11: Change of Spilling Rate from 1951 to 2001
Fig. 3.12a: Relationship between Population Packing and Spilling (1951)
Fig. 3.12b: Relationship between Population Packing and Spilling (2001)
Fig. 3.13: Relationship between Initial Disorderness and Population Diffusion
Fig. 3.14: Density CV Diffusion from 1951 to 2001
Fig. 3.15: Relationship between Initial Density and Population Diffusion
Fig. 4.1: Human Interference
Fig. 4.2: Island Index Map
Fig. 4.3: Geomorphological Changes of the Sundarbans from 1917-23 to 1967-69
Fig. 4.4: Geomorphological Changes of the Sundarbans from 1975 to 2004-2006
Fig. 4.5: Spatiality of Erosion: From North to South
Fig. 4.6: Spatiality of Deposition: From North to South
Fig. 4.7: Spatiality of Erosion: From East to West
Fig. 4.8: Spatiality of Deposition: From East to West
Fig. 4.9: Erosion Rate and Width of River
Fig. 4.10: Deposition Rate and Width of River
Fig. 4.11: Island Index Map for NDVI Analysis
Fig. 4.12: NDVI 1975
Fig. 4.13: NDVI 2006
Fig. 4.14: NDVI Distribution
Fig. 4.15: Relationship between NDVI Mean and NDVI CV in 1975
Fig. 4.16: Relationship between NDVI Mean and NDVI CV in 2006
Fig. 4.17: Human Interference and Mean NDVI (1975) – Distance from the Northern Settlement Area
Fig. 4.18: Human Interference and Mean NDVI (2006) - Distance from the Northern Settlement Area
Fig. 4.19: Human Interference and Mean NDVI (1975) – Nearest Distance from the Resource Harvesting Route
Fig. 4.20: Human Interference and Mean NDVI (2006) – Nearest Distance from the Resource Harvesting Route
Fig. 4.21: Major Landuse 1975
Fig. 4.22: Major Landuse 2004-2006

Fig. 5.1: Social Structure
Fig. 5.2: Dimensions of Social Structure
Fig. 5.3: Types of Resource Use
Fig. 5.4: Villages under Study
Fig. 5.5: Religious Composition of the Area under Study
Fig. 5.6: Spatial Expression of Inter-Religious Perceived Relationship
Fig. 5.7a: Inter-Religious Perceived Relationship: Riverine Case
Fig. 5.7b: Inter-Religious Perceived Relationship: Non-Riverine Case
Fig. 5.8: Ethnic Composition of the Area under Study
Fig. 5.9: Spatial Expression of Inter-Ethnic Perceived Relationship
Fig. 5.10a: Inter-Ethnic Perceived Relationship: Riverine Case
Fig. 5.10b: Inter-Ethnic Perceived Relationship: Non-Riverine Case
Fig. 5.11a: Concentration of SC Population, 2001 (By LQ Method)
Fig. 5.11b: Concentration of ST Population, 2001 (By LQ Method)
Fig. 5.12: Village-wise Distribution of Fishing Occupation
Fig. 5.13: Villages under Study for the Inter-Caste Functional Diffusion
Fig. 5.14: Diffusion of Fishing Occupation in the Riverine Villages
Fig. 5.15: Diffusion of Embroidery in the Riverine Villages
Fig. 5.16: Diffusion of Female Participation in Agriculture from Tribal to Non-Tribal Groups
Fig. 5.17: Structure of Social Atom
Fig. 5.18: Analogy between Atom and Social Atom
Fig. 5.19: Chemical Bonding of some Basic Hydrocarbons
Fig. 5.20a: Carbon-Carbon Atomic Bonding
Fig. 5.20b: Structural Configuration of Social Bonds
Fig. 5.21: Hypothetical Social Bond between Two Social Atoms
Fig. 5.22a: Property Division: Riverine Case
Fig. 5.22b: Property Division: Non-Riverine Case
Fig. 5.23: Occupational Interaction: Kinship and Village Relations
Fig. 5.24a: Pattern of Social Interaction: Riverine Case
Fig. 5.24b: Pattern of Social Interaction: Non-Riverine Case
Fig. 5.25a: Occupational Symbiotic Ties: Riverine Case
Fig. 5.25b: Occupational Symbiotic Ties: Non-Riverine Case
Fig. 5.25c: Occupational Symbiotic Ties
Fig. 5.26: Nature of Class Relation
Fig. 5.27: Structure of Social Bond: Riverine Community
Fig. 5.28: Social Aggregates: Riverine Community
Fig. 5.29: Structure of Social Bond: Non-Riverine Community
Fig. 5.30: Social Aggregates: Non-Riverine Community
Fig. 5.31a: Environmental Stress and Human Response: Riverine Case
Fig. 5.31b: Environmental Stress and Human Response: Non-Riverine Case
Fig. 5.32a: Structure of Fishing Group
Fig. 5.32b: Structure of Agricultural Labourer’s Group
Fig. 5.33: Inter-Village Interaction: From the View Point of Fishing and Agricultural Groups
Fig. 5.34a: Embankment Repairing and Construction, 2009: Case Study in Harbhanghi and Chharankhali
Fig. 5.34b: Embankment Repairing and Construction, 2009: Case Study in Garanbose
Fig. 5.35a: Scenario of Property Multiplication: Fishing Community
Fig. 5.35b: Scenario of Property Division: Agricultural Community
Fig. 5.36: Value System: Execution and Faith
Fig. 5.37: Age-wise Trend of Migration
Fig. 5.38: Selection of Sample Villages for Neighbourhood Study
Fig. 5.39a: Riverine village: From Amjhara to Choradakatia (Segment:1)
Fig. 5.39b: Riverine Village: From Dakshin Narayantala to Amratala 6 (Segment:2)
Fig. 5.39c: Riverine Village: From Amratala to Sonakhal 6 (Segment:3)
Fig. 5.40a: Non-Riverine Village: From Baragada to Titkumar (Segment:1)
Fig. 5.40b: Non-Riverine Village: From Phulmalancha to Pachapara (Segment:2)
Fig. 5.41a: Spatiality of Social Interaction: Riverine Villages
Fig. 5.41b: Spatiality of Social Interaction: Non-Riverine
Fig. 5.42: Stages of Development of Social Atom
Fig. 5.43: Social Aggregate: Intra and Inter-Village Level

Fig. 6.1: Structure of Livelihood Dynamics
Fig. 6.2a: Structure of Fishing Livelihood
Fig. 6.2b: Structure of Agricultural Livelihood
Fig. 6.3: Villages under Study
Fig. 6.4: Location of Major Fishing Grounds in the Matla Estuary of the Sundarbans
Fig. 6.5a: Occupational Diversification: Bhangankhali
Fig. 6.5b: Occupational Diversification: Purandar
Fig. 6.5c: Occupational Diversification: Jhorkhal 4
Fig. 6.6: Preference to Different Occupations for Younger Generation
Fig. 6.7a: Age-Wise Engagement in Aquatic Occupations: Bhangankhali
Fig. 6.7b: Age-Wise Engagement in Aquatic Occupations: Purandar
Fig. 6.7c: Age-Wise Engagement in Aquatic Occupations: Jhorkhali 4
Fig. 6.8a: Occupational Diversification: Phulmalancha
Fig. 6.8b: Occupational Diversification: Jhorkhali 2
Fig. 6.9: Preference to Different Occupations and Engagements
Fig. 6.10: Magnitude of Inter-Occupational Mobility
Fig. 6.11a: Family-Wise Occupational Environment: Bhangankhali
Fig. 6.11b: Family-Wise Occupational Environment: Purandar
Fig. 6.11c: Family-Wise Occupational Environment: Jhorkhali 4
Fig. 6.12a: Family-Wise Occupational Environment: Phulmalancha
Fig. 6.12b: Family-Wise Occupational Environment: Jhorkhali 2
Fig. 6.13: Temporal Change of Skewness of FOI
