

ACKNOWLEDGEMENTS

I express my indebtedness and deep sense of gratitude to my supervisor Dr. B. S. Marh, Professor of Geography, Department of Geography, Himachal Pradesh University, Shimla who has been a beacon of light inspiring and rendering me every help in accomplishing the present research work. It is a great pleasure for me to express my deep sense of gratitude to him for introducing me to this work undertaken in the field of geomorphology and for continuous help at every stage of present work.

I am thankful to Dr. Arun Sharma, State Geologist, Department of Industries, Shimla who helped me in acquiring the Geological data requisite for this research work. The detailed geological, tectonic, and structural information of the river valley has helped significantly to synthesize the genesis of landform features. I also feel grateful to Dr. R. K. Sood, Joint Member Secretary, Remote Sensing Cell, State Council for Science, Technology, and Environment. His guidance and helping hand is highly acknowledged. I also express my gratitude to Dr. Surender Kumar, Scientist, Wadia Institute of Himalayan Geology, Dehradun, for his valuable and encouraging suggestions and extending all possible help during library consultation.

I owe a considerable debt to Dr. Ramesh Kakar, Chairman, Department of Geology, P. U., Chandigarh for valuable guidance and extending departmental Library facilities. I am also thankful to Dr. Dhian Kaur, Chairperson, Department of Geography, P. U., Chandigarh for extending all possible help in the department. I am especially thankful to Dr. Krishna Mohan, Lecturer, Department of Geography, P. U., Chandigarh for help and encouragement during this research work.

I am grateful to Dr. J. C. Sharma, Dr. Anurag, Dr. P. D. Bhardwaj, and Dr. D. D. Sharma for their timely help, suggestions, and creative criticism. The services of Mr. Susheel Kumar, Sr. Assistant, and Mr. Rattan, Laboratory Assistant during this research work are also highly acknowledged. I am gratified to Mr. Naveen and Sandeep for their help in computer applications. I am highly indebted to friends for their valuable and encouraging suggestions in carrying out this research work. My sincere thanks are due to my labmates who have always been helpful.

I shall be failing in my duties if I do not make a special mention of my affectionate parents whose sacrifice, encouragement, and enlightenment helped me to achieve various goals in my life. My gratitude is also due to all relatives and colleagues especially who have always been source of inspiration and encouragement for me. My wife Kanchan deserves a venerable word of thanks for her constant encouragement and kind, and valuable co-operation and support during the course of this work. During this venture, I took away a part of love from my gorgeous son Bhuvan for which I feel guilty, as I was selfish in the lust to acquire the degree.

I express heart-felt thanks to my supervisor again for his pains taking efforts put in shaping and checking this work in shortest possible time inspite of his busy schedule and meticulous suggestions throughout the course of this dissertation. Besides from him, I learned to be diligent, humble, and unpretentious for which I shall ever remain indebted to him.

Dated: 22.08.2005

(Satish Kumar Ran)
