ACKNOWLEDGEMENTS

I am indebted to my guide and teacher
Dr. R.K. Sethi, M.D.(Paed.), D.C.H., Lecturer, Department
of Paediatrics, M.L.B. Medical College, Jhansi, for giving
me the privilege to work under him and for teaching me the
fundamentals, so that I could continue to learn for the
rest of my life. Any effort to write about him has become
an exhaustive and futile exercise. I can never forget
his affectionate guidance and healthy criticism. I can not
adequately express my thanks to him for the help, advice
and encouragement, he has always given me during my work,
inspite of my connivance for the present work.

I wish to express my gratitude to the
man of principles, shrewd judge of character, warm
hearted and generous Dr. Narmesh Kumar, M.D.(Paed.), D.C.H.,
Professor and Head, Department of Paediatrics, M.L.B.
Medical College, Jhansi, for his supervision and guidance
during the course of this study.

I would like to acknowledge my indebtedness to
other teachers, Dr. (Mrs.) S. Longia, M.D.(Paed.), Reader,
Department of Paediatrics, and Dr. A. Kamshik, M.D.(Paed.
Lecturer, Department of Paediatrics, M.L.B. Medical
College, Jhansi, who have generously allowed me to see
patients under their care.
I wish to acknowledge my debt to my younger brother Mr. Anuj, for his constant help, not only during the present session, but throughout my medical studies.

I owe much to Dr. Nupur, who has generously supplied the literature and given much advice. She remains the backbone to everything I do and listen patiently to everything I say. Her unswerving moral support and encouragement has helped to produce this work.

Finally it is with pleasure that I acknowledge the efficient and willing cooperation of Mr. K.M. Thomas in typing the manuscript.
