ACKNOWLEDGEMENTS

I acknowledge with deep gratitude my debt to the following persons who have all made invaluable contributions towards this dissertation:

(1) My thesis supervisor Dr. S.N. Dube for exceptionally inspiring guidance which constantly led me to obtain almost everything that I have put in here.

(II) Professor Padma Bhushan P.L. Bhatnagar, who is solely responsible for initiating my taking up research, for making numerous suggestions and criticisms of the various drafts of this manuscript as a result of which the earlier versions have been considerably improved upon.

(III) Dr. M.B. Benerjee for sustained encouragement throughout the research work and for his several interesting discussions.

(iv) Members of the Department of Mathematics here for their kind help and support.

(v) Our Librarian, Dr. R.L. Mittal and his staff for making their resources available to me.

C. L. Sharma
