ACKNOWLEDGEMENTS

This work cannot but remain incomplete without acknowledgements to my teachers, colleagues, and all those without whose help and guidance it would never be in its present form.

First and foremost I express my deepest gratitude to my Guide Dr. Anil Kaushik, M.D., Assistant Professor, Department of Pediatrics, M.L.B. Medical College, Jhansi, for his timely suggestions, intercep-
tions and able guidance. Without his knowledgeable and dynamic guidance it was impossible to complete this work.

I take this privilege to express my gratitude to Prof. Ramesh Kumar, M.D., D.C.H., Head of the department of Paediatrics, M.L.B. Medical College, Jhansi for his generous ever patronizing attitude and for always being a source of encouragement.

I do not have words to convey how indebted I feel to Dr. R.K. Agarwal, M.D., Associate Professor and Head of the department of Microbiology, M.L.B. Medical College, Jhansi, who as my co-guide was a perennial source of exceptional advice, help and unstinted guidance. This work could never be carried forward and completed without his timely interventions and invaluable help and guidance.
I extend my sincere thanks to Dr. (Mrs.) Sheela Longia, M.D., Associate Professor and Dr. R.S. Sethi, M.D., D.C.H., Assistant Professor, Department of Pediatrics, M.L.B. Medical College, Jhansi for their co-operation and sympathetic attitude and always being a source of encouragement.

I feel privileged to mention that the blessings of my parents and family elders were always with me. I shall ever be grateful to my friends and colleagues for their help and support rendered to me in this work.

I also acknowledge Mr. Jwala Singh, Lab. Chemist, Department of Microbiology, for his ever ready assistance in the laboratory work and Mr. Phool Chandra Sachan for typing this manuscript.
