ACKNOWLEDGMENT

The author wishes to express his deep sense of gratitude, indebtness and sincere thanks to Prof. T. Sundararajan, for his motivation, invaluable suggestions and personal supervision of the work. The author sincerely appreciates his deep understanding, keen interest, untiring enthusiasm, and constant care he took in shaping this thesis. The author also acknowledges his meticulous evaluation of the work at each stage and inimitable patience shown during the preparation of the manuscript, apart from, the cordial and affectionate treatment.

Suggestions and encouragement given by Dr. D. Govindarajulu, Professor and Head of Civil Engineering Department, during the various stages of the thesis, apart from, granting permission to utilize the laboratory facilities, is thankfully acknowledged.

Constructive and critical suggestions offered by Dr. S. Kothandaraman, Asst. Prof. in the Dept. of Civil Engineering, at every stage of the work and the timely help by providing valuable literature, are acknowledged with gratitude. Constant encouragement and inspiration given by Dr. S. Sivamurthy Reddy, Dr. M. A. Sivasankaran and Mr. G. Gerald Mosses, all Asst. Professors in the Dept. of Civil Engineering, enabled the author to carry out the work successfully, is greatly appreciated. The author wishes to express his gratitude to the Principal, Pondicherry Engineering College (PEC) for having permitted to utilize the library and other facilities available in the Institute.

The author appreciates the assistance rendered by Mr. M. Gunalan, Mr. M. Ponnusamy, and Mr. S. Palanisamy, Laboratory staff of the Dept. of Civil Engineering, PEC, in conducting the experiments related to this Thesis. The author is thankful to Mr. S. Pounniacoudy, Data Entry Operator, CAD Center, Department of Civil Engineering, for his kind and timely help in the preparation of the manuscript of this Thesis.
The kind cooperation and help extended by Dr. G. Vaidyanathan, Dr. R. Kanan and Mr. Harish Kumar, Dept. of Physics, PEC, for carrying out some of the tests and in the analysis of a few results reported in this work, is gratefully acknowledged.

The author wishes to express his whole-hearted thanks to the Librarian, PEC and his staff members, for their help and support me in collecting the literature relevant to the present study. Sincere thanks are also due to the Deputy General Manager, CARD, Neyveli; General Manager (Marketing), TANFAC, Cuddalore, for extending the laboratory facilities available with respective organization for analyzing the chemical composition of fly ash, lime and gypsum, used in this study. Staff of Materials Division, IGCAR, Chennai, are also thanked for the help they extended in carrying out some of the XRD analysis of the samples used in this study, at their laboratories. Dr. P. Kesavan Nair, and Dr. Gokulrathnam, Professors at MSRC, IIT, Chennai, are also thanked for their help and cooperation in carrying out XRD and SEM analysis at the above center.

The understanding and patience shown by the author’s wife Mrs. Vishalakshi is recorded with a deep sense of gratitude.

Venkata Lakshmi Narasimha
