The pursuit of a Ph.D. degree engenders in us an innate sense of honesty, enthusiasm and sincerity. The journey is marked by innumerable highs and lows which become all the more easier to celebrate and face with a sturdy brawny system.

First and foremost I want to pay my gratitude to the most magnificent Allah who enlightens my heart with spiritual light to find the true path. It is the will of mighty Allah that has enabled me to realise my dreams in the face of all adversities. His endless mercies have humbled me and given me the strength to strive harder to achieve my goals. I am thankful to Him again to make me follow the path of life as shown by Prophet Mohammad (PBUH).

At this stage of my career, I feel indebted to convey my gratitude to all those who have supported me in my research pursuit. With sincere feelings, I express my heartiest gratitude to my extremely proficient supervisor Prof. Wajihullah for his invaluable wisdom, valuable suggestions, kindness, full support and timely help during the entire study programme that lead to preparation of this manuscript. It is under his guidance that I have been able to broaden my scientific horizons and deepen my practical knowledge. His constant encouragement and rewarding appreciation always energized me to think novel. He moulds me into a new sculpture, which is more capable to accept challenges. In return to him for the knowledge which I got from him, I can only offer my respectful obeisance to him.

A special mention to Prof. Iqbal Parvez, Chairman of Zoology, Aligarh Muslim University, Aligarh for allowing me to avail the necessary laboratory facilities to carry out the work successfully.

Special thanks to Prof. S.M.A. Abidi for his kind suggestions and moral support whenever needed. It’s my pleasure to thank Dr. Malik Irshadullah, Dr. Khalid Saifullah for their support and kind suggestions. I am highly delighted in paying my gratitude to Prof. Qudsia Tahseen and Prof. Mukhtar Ahmad Khan for their help whenever needed.

My lab mates Farha Taufiq, Khadija Khan, Sana, Zahida Khanum, Ansari Nahida deserve the credit of enlivening the environment and lightening my burden with their briskness. I specially want to thank Sharba Kausar and for always been there at my good and bad times. She sorted out problems whenever I shared the ups and downs of my life with her.
I wish to express my special thanks to Dr. Mohd. Adil, Interdisciplinary Biotechnology Unit for his immense help and moral support during the ups and downs of my life. His valuable suggestions showed me right path.

A sincere thanks to all the research scholars at the Department of Zoology for their endless co-operation. Heartily thanks to all my dear friends Dr. Talat, Dr. Mehbar, Dr. Afshin, Dr. Nadia, Dr. Areeba, Sadia, Sabiha, Hannan, and Nazia for their valuable presence and timely support.

I am greatly indebted to Prof. Abdul Latif, Ilmul Advia, Tibbiya College, AMU, Aligarh for allowing me to work in his prestigious lab. Very special thanks to Dr. Sumbul Rehman for her support during my Ph.D. work.

I am highly delighted in paying my gratitude to Dr. Shashi Bhushan Tripathy, Madan Negi and Priyanka Nandan, TERI, Human Habitat Centre, New Delhi, for their concern and timely contribution.

I am greatly indebted to all the doctors of JNMC Aligarh, who helped me during my sample collection and clinical study. My gratefulness to Prof. Haris Mansoor, Dr. Anjum Parvez, Dr. Asif, Dr. Mujahid, Dr. Nazish, Dr. Abaad, Dr. Ashish, Dr. Nazish, Dr. Nasar, Dr. Arif and Dr. Nazir for supporting me throughout my study.

I am very thankful to the non teaching staff Mr. Mustaffa, Mr. Shakir, Mr. Firoz for their timely help.

I am very grateful to the Lord for blessing me with adoring, kind and encouraging Parents, who left no stone unturned to make me the person I am today. They form the backbone and origin of my happiness. If today I’ll be able to achieve anything whether socially or scientifically, its whole credit goes to their blessings. It’s their hard work, sacrifice, prayers which is bound in this thesis.

I owe my heartfelt thanks to my in-laws Mr. Gausul Azam Khan and Jamal Afroze Khan for their full support in all possible ways and believing in my dreams. Timely support of my siblings Abu Shahab Shaikh, Dr. Ramis Khan, Uzma Shaikh, Nesa Khan and Hera Shaikh cannot be described in words. Adding joy to my life with their optimism.
I heartily acknowledge the help and cooperation which I received from Mrs. Shaheen Meraj for always being concerned and a source of inspiration and always been ready to lend helping hand along with her advices. I extend my thanks to my cousins Arshia, Sofia, Umair, Yusuf, Areeba, Nida, Raja, Kashif, Hena, Sadaf and my uncle and aunty Aijazuddin and Nooria for always being understanding.

A special thanks to Mr. Monis Khan who provided me a rock-like support during my acute moments of crisis. Thanks for always boosting my moral and inculcating in me the ability to take failure in stride and bounce back higher and stronger. Thanks to my loving daughter Nusaybah Khan for bringing smile on my face after the tedious day and the reason of happiness in my life.

Lastly thanks to Department of Zoology staff and Staff of the Dean office for providing the facilities. I am greatly indebted the University Grant Commission (UGC), New Delhi India, for providing financial support in the form of Maulana Azad National Fellowship (MANF) for my research work.

Finally, I would like to thank everybody who was important to the successful apprehension of this thesis, as well as expressing my apology that I could not mention personally one be one.
