LIST OF FIGURES

Fig. 1 : Diagrammatic representation of mangrove associated crab.

Fig. 2 : Map of Ratnagiri coast showing study sites.

Fig. 3 A : Study sites- Bhatye

Fig. 3 B : Mangrove vegetations at Bhatye.

Fig. 4 A : Study sites- Golap.

Fig. 4 B : Mangrove vegetations at Golap.

Fig. 5 A : Study sites- Kalbadevi.

Fig. 5 B : Mangrove vegetations at Kalbadevi.

Fig. 6 A : Study sites- Mirya.

Fig. 6 B : Mangrove vegetations at Mirya.

Fig. 7 A : Study sites- Varwade.

Fig. 7 B : Mangrove vegetations at Varwade.

Fig. 8 A : Study sites- Kasari (Jaigadh).

Fig. 8 B : Mangrove vegetations at Kasari (Jaigadh).

Fig. 9 : Sonneratia griffithii

Fig. 10 : Rhizophora mucronata

Fig. 11 : Ceriops tagal

Fig. 12 : Avicennia marina

Fig. 13 : Avicennia officinalis

Fig. 14 : Acanthus ilicifolius

Fig. 15 : Aegiceras comicum

Fig. 16 : Lumnitzera racemosa

Fig. 17 : The Crab Charybdis cruciata dorsal view.

Fig. 18 : The Crab Clionidae merguience dorsal view.
Fig. 19: The Crab *Eurycarinclus orientalis* dorsal view.

Fig. 20: The Crab *Leptodius exaratus* dorsal view.

Fig. 21: The Crab *Metopograpsus messor* dorsal view.

Fig. 22: The Crab *Portunus pelagicus* dorsal view.

Fig. 23: The Crab *Portunus sanguinolentus* dorsal view.

Fig. 24: The Crab *Parasesaroma plicatum* dorsal view.

Fig. 25: The Crab *Scylla serrata* dorsal view.

Fig. 26: The Crab *Thalamita crenata* dorsal view.

Fig. 27: The Crab *Uca lactea* dorsal view.

Fig. 28: The Crab *Uca vocans* dorsal view.

Fig. 29 A: Map showing locations of quadrates laid in mangrove vegetation at Bhatye.

Fig. 29 B: Map showing locations of quadrates laid in mangrove vegetation at Golap.

Fig. 30 A: Map showing locations of quadrates laid in mangrove vegetation at Kalbadevi.

Fig. 30 B: Map showing locations of quadrates laid in mangrove vegetation at Mirya.

Fig. 31 A: Map showing locations of quadrates laid in mangrove vegetation at Varwade.

Fig. 31 B: Map showing locations of quadrates laid in mangrove vegetation at Kasari (Jaigadh).

Fig. 32: Population density of mangrove species.

Fig. 33: Species diversity ($H'$) index of mangrove species.

Fig. 34: Species Evenness ($E_1$) index of mangrove species.

Fig. 35: Species Richness ($R_1$) index of mangrove species.

Fig. 36: Hill's Diversity Number ($N_1$) of mangrove species.

Fig. 37: Population density of mangrove associated crab species.

Fig. 38: Species diversity ($H'$) index of mangrove associated crab species.

Fig. 39: Species Evenness ($E_1$) index of mangrove associated crab species.

Fig. 40: Species Richness ($R_1$) index of mangrove associated crab species.
Fig. 41: Hill’s Diversity Number (N1) of mangrove associated crab species.
Fig. 42 A: Destruction (cutting) of mangroves at Golap.
Fig. 42 B: Destruction (cutting) of mangroves at Kalbadevi.
Fig. 43 A: Construction of dam in mangrove habitat at Kalbadevi.
Fig. 43 B: Dried mangroves at Kalbadevi.
Fig. 44: Chemical pollution at Kalbadevi.
Fig. 45: Annual Rainfall.
Fig. 46: Seasonal variation in pH.
Fig. 47: Seasonal variation in aerial temperature.
Fig. 48: Seasonal variation in water surface temperature.
Fig. 49: Seasonal variation in salinity.
Fig. 50: Seasonal variation in dissolve oxygen.
Fig. 51: Seasonal variation in BOD.
Fig. 52: Seasonal variation in COD.
Fig. 53: Seasonal variation in phosphate.
Fig. 54: Seasonal variation in nitrate.
Fig. 55: Seasonal variation in hardness.
Fig. 56: Seasonal variation in terbidity.
Fig. 57: LDH activity in different tissues of *Thalamita crenata*.
Fig. 58: MDH activity in different tissues of *Thalamita crenata*.
Fig. 59: SDH activity in different tissues of *Thalamita crenata*.
Fig. 60: Protein content in different tissues of *Thalamita crenata*.
Fig. 61: Lipid content in different tissues of *Thalamita crenata*.
Fig. 62: Glycogen content in different tissues of *Thalamita crenata*.
Fig. 63 A: Location of ovaries in the crab, *Thalamita crenata*.
Fig. 63 B: C. s of ovary of *Thalamita crenata*.
Fig. 64 A: Location of testes in the crab, *Thalamita crenata*.
Fig. 64 B: C. s. of testes of *Thalamita crenata*.
Fig. 65 A: Location of hepatopancreas in the crab, *Thalamita crenata*.
Fig. 65 B: C. s. of hepatopancreas of *Thalamita crenata*.
Fig. 66: Neurosecretory cells in c.s. of brain of the crab, *Thalamita crenata*.
Fig. 67: Neurosecretory cells in c.s. of thoracic ganglia of the *Thalamita crenata*.
