Acknowledgements

I would like to express my sincere gratitude to my thesis supervisor Prof. S. Dev for his excellent guidance and constant support during my research work. He diligently and delightfully guided me and kept me motivated throughout the course of work. He has always been a great source of inspiration for me.

I owe a great debt to my seniors Sanjeev Kumar, Shivani Gupta and Surender Verma for always patiently explaining everything regarding research work and for always offering their invaluable help to me. Sumit, Lal Singh and Desh Raj deserve my special thanks for their help. The high energy physics research group, here, at Himachal Pradesh University has been a wonderful source of friendship and collaboration.

I am thankful to the Chairman, Department of Physics, and other teachers for their help and encouragement. My sincere thanks to the non-teaching staff of the Department and the Library staff for their help. I would like to acknowledge the financial support provided by CSIR, Govt. of India, during this work. My debt to other numerous authors whose invaluable textbooks, research papers and articles have been consulted is not less.

I am indebted to all my friends, here, at the University and back at home, in particular (but not restricted to) Amit, Ashish, Barender, Karan, Kushal, Manish, Manoj, Monika, Monu, Munish, Neelam, Rakesh, Ramesh, Rishi, Samjeet, Satpal, Shyam, Sudesh, Sunil, Tirupati and Varun, who not only provided me emotional support but always helped me in all aspects of my life. Their unconditional support and encouragement throughout these years has been invaluable. I will always cherish the moments spent with Gaurang, Shashwat and Oshi.

I am forever grateful to my parents and my brother for their infinite loving support and encouragement in whatever academic or non-academic interests I have pursued. There are many other people who have in one way or the other helped me complete this work. I would like to thank them all for their help. For any errors that may remain in this work, of course, the responsibility is my own.

Radha Raman Gautam
