ACKNOWLEDGEMENTS

Space does not permit me to acknowledge and express my heartfelt thanks to all, but a particular mention should be made of those whose inspiration and incessant encouragement enabled me to complete this manuscript and without whose support and guidance it would not have taken the present shape.

First and foremost, from the deepest recess of my being I feel great serenity to express highest veneration and heartfelt gratitude to my speculative, prudent and dignified supervisor, Prof. S.K. Sood, Department of Biosciences, Himachal Pradesh University, Shimla, who as a guide, at every step has brought in his professionalism and expertise in guiding, motivating and supporting me with his invaluable, critical appraisal of the work to take the present shape. He led me through every thick and thin with utmost patience and magnanimity.

I gratefully record my gratitude to Prof. H.S. Banyal, Chairman & Dean Life Sciences, for providing me all the necessary facilities for this work in the department. I am also grateful to all the faculty members for their encouragement and good wishes and to the members of non-teaching staff for their kind help.

The financial assistance in the form of fellowship by the University Grants Commission (UGC) is gratefully acknowledged.

Adequate words are in want to express the appreciation for the generosity of Dr S. Kumar, Joint Director, Botanical Survey of India, Dehra Dun for providing me with the facility support, and Dr Sas Biswas and Dr Sumer Chandra, Forest Research Institute, Dehra Dun for their kind help in authentication of the plant specimens.

I would like to cordially thank all my lab-mates Dr Kuldeep Dogra, Mr Dheeraj, Mr Ved Prakash, Mr Gopal, Mr Vijay, Ms Anjana, Ms Romita, Ms Seema, Ms Suman Ms Minakshi, Ms Vipula, Ms Poonam, Ms Ruchi, and Ms Mamta for providing a stimulating working environment in the laboratory and help in various ways. Ms Dhruti Sharma deserves special mention for her all help and support. Special thanks are also due to my seniors Dr Sushil Kumar Bassi and Dr Sanjay Sharma for their kind help and good wishes.

My feelings of gratitude give me an immense pleasure to affectionately acknowledge the help rendered by my friends, Mr Parveen Sankhyan, Mr Naveen Gautam, Mr Rakesh Kumar, Mr Pawan Heera, Dr Madan Verma, Dr Pankaj, Mr Munish, Mr Sushil and Mr Harbans Nangla for their love, cooperation and constant encouragement during the course of my study. Also, I extend my special thanks to Mr Anil Arora and Mr Hem Raj for their whole hearted help and co-operation.
From the deepest core of my heart, I am grateful to my loving parents, Shri Elachi Ram and Smt. Kaushalya Devi whose silent blessings, timely guidance, sacrifices and everlasting affection enabled me to complete this work.

My heartfelt gratitude is due to my sister, Smt. Sunita Devi who contributed immensely towards completion of this work by providing immense support and necessary inspiration that enabled me to concentrate on my research work in all possible ways.

I also wish to acknowledge my gratitude to my brother, Mr. Madan Lal, sister-in-law (bhabhi) Smt. Sudesh, sisters Smt. Veena Devi and Late Smt. Rekha, brothers-in-law Mr. Ramesh Chand, Mr. Ashok Kumar and Mr. Tulsi Sandhu and their beloved children Himani, Dupal, Mayank, Doly, Mona, Ishu, Samridhi, Boby, Anukampa and Anupam for their good wishes, affection and constant encouragement throughout the course of this study.

Last but not the least, I consider it my bounded duty to bow to Almighty, whose kind blessings always inspired me to walk in the right path of life.

Shimla
