ACKNOWLEDGEMENTS

It is a great privilege for me to express my sincere gratitude to my respected teacher and supervisor Dr. S.N. Saxena, M.D., Dip. Bact. (Toronto), Director, Central Research Institute, Kasauli for providing me his expert guidance, encouragement and inspiration throughout the work.

I am extremely grateful to Dr. (Mrs) S. Ahuja, Deputy Director and Dr. (Mrs) S.B. Sharma, Assistant Director for providing me excellent working facilities, constructive criticism and valuable suggestions. I am highly thankful to Dr. P. Gupta, Deputy Director, Shri Ashok Kumar, Assistant Director and staff of Pertussis Laboratory, Triple Vaccine Division of the Institute for their help and suggestions in the preparation of pertussis vaccine suspensions. I am also thankful to Shri C.N. Misra, Assistant Director for the moral support and encouragement.

I express my thanks to Drs. Yuji Sato and Hiroko Sato, National Institute of Health, Tokyo (Japan), Professor Edgar H. Relyveld, Institut Pasteur, Garches (France) and Dr. John B. Robbins, National Institutes of Health, Bethesda (U.S.A.) for useful discussions on various aspects of production and standardization of pertussis vaccine. Thanks are also due to various Scientists for supplying purified components and Reference Preparations of Bordetella pertussis, the details of whom have been described in various sections of the text.

I acknowledge with thanks the help provided by the staff of Biological Standardization & Quality Control Division and Photography Section of the Institute.

(Rajesh Kumar Gupta)
