Acknowledgement

I acknowledge my heartfelt gratitude and deep sense of appreciation to my respected supervisor Professor G. C. Layek, Department of Mathematics, The University of Burdwan, who gave me the lesson of the subject and fostered my interest in fluid mechanics and quietly inspired me with his brilliance. His intellectual advice and suggestions had helped in every milestone of my research work.

I express my sincere thanks to all Faculty members in the Department of Mathematics, The University of Burdwan, for their help and encouragement during the course of my work. I am also grateful to Dr. Swati Mukhopadhyay, Assistant Professor, Department of Mathematics, The University of Burdwan for her constant moral support throughout the entire period of my research work.

I express my gratitude to my parents Mr. Anil Kumar Basu and Late Mrs. Jolly Rani Basu who had always encouraged, motivated and given me the moral values of life.

I am thankful to all the scholars of the department for their friendly help during the period of my research. In particular, I pay my heartiest thanks to Manishankar, Prativa and specially to Krishnendu for their help and brilliant accompany that I am enjoying for the last few years of my research journey.

I would express my thanks to all staff of the Department and the authorities of The University of Burdwan for their constant help and co-operation they provided me with requisite facilities to carry out my Ph. D. work.

Special gratitude is forwarded to my wife Mrs. Lopamudra Basu, for her patience, encouragement and moral support. I would also like to express my thanks to my loving daughter Srijeeta, for her active companion which helped me greatly to carry out my research work in peace of mind. I express thanks to my brother Rajesh Basu for his patience support to complete my research.
