LIST OF TABLES

Table 1: Block wise demographic account of Scheduled Tribes in Puruliya district.
Table 2: Maximum and minimum temperature (in°C) by month as experienced by the district of Puruliya.
Table 3: Mean maximum and mean minimum temperature (in°C) by month as experienced by the district of Puruliya.
Table 4: Monthly rainfall (in millimeter) in the district of Puruliya.
Table 5: The river system of Puruliya district.
Table 6: An account of total vested water area, total number of tanks and total area of tanks in the district of Puruliya.
Table 7: An account of some reservoirs distributed in different Blocks in the district of Puruliya.
Table 8: Area irrigated by different sources in the district of Puruliya.
Table 9: Some classification of land utilisation statistics (in thousand hectares) in the district of Puruliya.
Table 10: Classification of Forest areas (hectares) in the district of Puruliya.
Table 11: Classification of Forest produce in the district of Puruliya.
Table 12: Area of vested agricultural land distributed and number of beneficiaries in the district of Puruliya.
Table 13: Summary of the major roles of macrophytes in constructed wetlands.
Table 14: List of Indian wetlands of International Importance.
Table 15: Some important research contributions towards wetlands in India.
Table 16: Vested and non vested waterbodies in the constituent districts of West Bengal.
Table 17: Total number and area of vested waterbodies belonging to different site classes in the constituent district of West Bengal.
Table 18: Total number and area of non vested waterbodies belonging to different site classes in the constituent district of West Bengal.
Table 19: List of persons from whom information regarding wetlands and their uses.
Table 20: The unit characters used in phenetic classification of the wetlands.
Table 21: Methods used for studying different physico-chemical parameters of water samples.
Table 22: List of abbreviations used in taxonomic work.
Table 23: An inventory of selected wetlands spread in different parts of Puruliya district.
Table 24: General characteristics of wetlands in Puruliya District.
Table 25: Response of wetlands to 2-state unit characters.
Table 26: An account of the macrophytes characteristic of different wetlands under study.
Table 27: Physico-chemical characteristics of water samples from three selected wetlands.
Table 28: Physico-chemical characteristics of water samples from three selected wetlands.
Table 29: Details of sampling site.
Table 30: Physico-chemical characteristics of sediment samples from three selected wetlands.
Table 31: Form analysis of macrophytes associated with wetlands in Puruliya district.
Table 32: Utilitarian perspectives of macrophytes as recorded from primary sources.
Table 33: An inventory of wetlands and the restorative strategies suggested for them.
Table 34: An inventory of wetlands and the strategies suggested for sustainable development based on them.
Table 35a: Taxonomic analysis of Angiosperms.
Table 35b: Taxonomic analysis of Cryptogams.
Table 36: List of Dominant Family in wetlands in Puruliya District, West Bengal.
Table 37: List of Dominant Genera in wetlands in Puruliya District, West Bengal.
Table 38: The enumeration of Dicotyledonous species associated with the concerned wetland.
Table 39: The enumeration of Monocotyledonous species associated with the concerned wetland.
Table 40: Life span analysis of wetland macrophytes in Puruliya District.
Table 41: An analysis of the different growth form categories of wetland macrophytes and their respective species.
Table 42: An analysis of the different Growth Form categories of wetland macrophytes and their respective species.
Table 43: An analysis of the different Ecophase categories of wetland macrophytes and their respective species.
