LIST OF TABLES

Table – 1: Personal characteristics of Respondents 78
Table – 2: Family characteristics of Respondents 79
Table – 3: Personal history of Respondents 80
Table – 4: Family history of Respondents 81
Table – 5: Gender wise body mass index (BMI) of the Respondents 84
Table – 6: BMI classification of the Respondents 84
Table – 7: Waist circumference of the Respondents 86
Table – 8: Body fat percentage of the Respondents 89
Table – 9: Metabolic age of the Respondents 91
Table – 10: Body water percentage of the Respondents 92
Table – 11: Visceral fat percentage of the Respondents 93
Table – 12: Bone mass of the Respondents 95
Table – 13: Muscle mass of the Respondents 96
Table – 14: FBS of the Respondents 97
Table – 15: PPBS of the Respondents 98
Table – 16: HbA1c of the Respondents 99
Table – 17: Diastolic readings of the Respondents 101
Table – 18: Systolic readings of the Respondents 102
Table – 19: Clinical status of control group 103
Table – 20: Clinical status of overall experimental group 104
Table – 21: Dietary habits of Respondents 105
Table – 22: Frequency of cereals and pluses consumption of the Respondents 107
Table – 23: Frequency of vegetables and fruits consumption of Respondents 109
Table – 24: Frequency of consumption of other food groups of the Respondents 111
