ACKNOWLEDGEMENTS

I vividly remember the early days of my tenure at the Department of Bio-Sciences, H.P. University, Simla where many teachers and friends provided a congenial and competitive environment for academic and research pursuits.

I take this opportunity to record my deep sense of gratitude and indebtedness to my mentor and research supervisor Dr. R.K. Malhotra (at present Professor of Zoology, Punjabi University, Patiala) for suggesting the problem, constant guidance and incessant encouragement throughout the course of this investigation without which the present shape of the thesis would not have been possible.

I am indebted in particular to Professor H.O. Agrawal, Head of the Department of Bio-Sciences, H.P. University, Simla for providing the necessary laboratory facilities and all the help at crucial times. He also took a personal interest in the progress of my research work during the concluding period.

I am grateful to Dr. S.R. Anand, Department of Biochemistry, National Dairy Research Institute, Karnal for helpful discussions.

I am grateful to Dr. Shobha Goyle, School of Life Sciences, Jawaharlal Nehru University, New Delhi for
her encouragement and cooperation which helped me complete the manuscript at an early date.

I acknowledge with thanks the help offered in various ways by many of my colleagues notably Dr. S.S. Katoch, Messers Kewal Krishan, O.P. Sharma, Navneet K. Gupta, M.L. Sharma, B.K. Bhawan, Mrs. Kusum Lata (H.P. University, Simla); Messers Ram Kumar, B.K. Sharma (Punjabi University, Patiala); Mrs. Neeta Kapai and Mr. Ashok K. Maurya (Jawaharlal Nehru University, New Delhi) during the preparation of the manuscript.

I would also like to thank Muscular Dystrophy Association of America, Inc., New York, U.S.A.; The British Library Lending Division, West Yorkshire, U.K.; Medline, World Health Organization, Geneva, Switzerland and C.S.I.R.O., Blacktown, Australia for sending me valuable literature and bibliography citations.

I also wish to express my thanks to Mr. Sandeep Kumar for the line-work and Mr. R.N. Saini for the preparation of photomicrographs. Mr. S. Madanpotra was painstakingly patient during typing of the manuscript and I thank him for his meticulous effort.
Financial support from the Council of Scientific and Industrial Research, India in the form of Junior and Senior Research Fellowships during the course of the present work is gratefully acknowledged.

10th January, 1981.

Kamlesh Asoha.
