I hereby state that this dissertation entitled “History of Indian Telecommunication Revolution with special emphasis on the Telecom Policy 1994 and its impact” is my original work and no book or study of this nature has ever been done on this topic till date to the best of my knowledge and understanding.

The sources are genuine and first hand and this pioneering study on the history of telecommunication revolution in the country will prove path-breaking in the sense that it gives indepth analysis of the problems, scope and future growth in the area. It has come up with revealing insight into the sires and remedies in India’s experiment with the knowledge world. Similar study has not previously formed the basis for the award of any degree, diploma or fellowship.

Place: New Delhi  
Date: July 28, 2005
