ACKNOWLEDGEMENTS

I do not know how to express my deep heartfelt sense of feelings to my research supervisor Dr. A. Govardhan, Professor of Computer Science and Engineering, Jawaharlal Nehru Technological University (JNTU), Hyderabad, for the harmony I had which inspired and encouraged me.

I am highly thankful and also grateful for the facilities provided by Dr. I. Ramesh Babu, Professor and Head of the Department of Computer Science and Engineering, Chairman Board of Studies, Acharya Nagarjuna University, Guntur, which helped me a lot in completing this work.

I will fail in my duty if I do not recognize the valuable suggestions and advice rendered to me by Dr. R. B. V. Subramanyam, Assistant Professor, Department of Computer Science and Engineering, National Institute of Technology (NIT), Warangal, for earmarking some of his valuable time from his busy schedule. My mind cannot fail to express my gratitude and thanks for his unrelenting support and encouragement in preparation of this text.

With all the domestic and official work being carried out and giving words of encouragement by my better half has given me enough strength which I cherish in my heart. I cannot forget the blessing of my beloved parents, without whom this work could not be possible.

The academic and personal support rendered by my colleagues in University Arts & Science College, Kakatiya University, Warangal, cannot be forgotten forever.

My friends and well wishers who used to boost my dwindling spirit whenever noticed were of great relief and I do not know how to thank them.
