CONTENTS

INTRODUCTION AND OBJECTIVES OF THE INVESTIGATION 1

CHAPTER I

Literature Review on Controlled Release Drug Delivery Systems 9
Oral Controlled Release Systems 12
Matrix Devices 25
Factors Influencing the Design and Performance of Controlled Release Products 31
References 39

CHAPTER II

Literature Review on Mucoadhesion and Mucoadhesive Drug Delivery Systems 40
Mucoadhesive Polymers 48
Past Work on Oral Mucoadhesive Drug Delivery Systems 53
References 58

CHAPTER III

Drug Profiles and Literature on Controlled Release of Selected Drugs 65
Diltiazem – A profile 65
Need for Controlled Release of Diltiazem 70
Glipizide – A profile 71
Need for Controlled Release of Glipizide 75
Diclofenac Sodium – A profile 79
Need for Sustained Release of Diclofenac 83
Indomethacin – A profile 84
Need for Sustained Release of Indomethacin 91
References 93

CHAPTER IV

Polymers in Controlled Release 102
Polymers used in the Study 106
References 113
CHAPTER V

Analytical Methods
Methods for the Estimation of Diltiazem 115
Methods for the Estimation of Glipizide 119
Methods for the Estimation of Diclofenac 123
Methods for the Estimation of Indomethacin 126
References 130

CHAPTER VI

Design and Evaluation of Mucoadhesive Tablets of Diltiazem for Oral Controlled Release 135
Experimental 135
Results and Discussion 156
Evaluation of theoretical SR profile needed for Diltiazem 158
Formulation and Evaluation of Two-Layered SR Tablets 159
Results and Discussion 165
References 167

CHAPTER VII

Design and Evaluation of Mucoadhesive Tablets of Glipizide for Oral Controlled Release 168
Experimental 168
Results and Discussion 189
Evaluation of Theoretical SR Profile needed for Glipizide 191
Formulation and Evaluation of Two-Layered SR Tablets for Glipizide 192
Results and Discussion 198
References 199

CHAPTER VIII

Design and Evaluation of Mucoadhesive Tablets of Diclofenac for Oral Controlled Release 200
Experimental 200
Results and Discussion 215
References 219

CHAPTER IX

Design and Evaluation of Mucoadhesive Tablets of Indomethacin for Oral Controlled Release 220
Experimental 220
Results and Discussion 234
References 238
## CHAPTER – X

Pharmacokinetic Evaluation of Diclofenac CR Tablets Formulated and Commercial Products 239
Study Protocol and Design 239
Evaluation of Pharmacokinetic Parameters 245
*In vivo* Evaluation of Mucoadhesive Property of The Polymer Combinations 252
Results and Discussion 253
References 255

## CHAPTER – XI

Stability Studies on Selected Controlled Release Formulations Developed 256
Experimental 256
Results and Discussion 266

## CHAPTER – XII

Summary and Conclusions 267
