ACKNOWLEDGEMENTS

I am deeply indebted to Dr V.L. Narasimham, Professor of Statistics, Nagarjuna University, for his intellectual stimulation, inspiring guidance, constructive criticism and helpful suggestions during the entire course of my research investigation.

I thank Dr R.R.L. Kantam, Reader, Department of Statistics, Nagarjuna University, for kindly sparing his valuable time whenever I approached him for discussion during the course of my research project. Further, I am grateful to him for his help in the presentation of this thesis.

I thank Dr A.V. Dattatreya Rao, Reader, Department of Statistics, Nagarjuna University, for his help in Computerisation and presentation of the numerical results in this thesis. I am also grateful to him for his encouragement and help during the course of this research study.

The sincere assistance extended by Sri K. Rosaiah and Sri A. Vasudeva Rao, Members of the Faculty, Department of Statistics, Nagarjuna University, in various aspects of this work is remembered forever with gratitude.
Dr I.R. Sharma, Reader, Department of Mathematics, Nagarjuna University, is of good help to me, in overcoming some mathematical obstacles while pursuing this research study. I am grateful to him.

I thank the authorities of Nagarjuna University, the Head, Department of Statistics, in particular, for providing all the facilities in completing this task.

Sri Sk Rehman is complimented for patiently typing this thesis.

Above all, I wish to express my long-standing gratitude to all my family members who always look forward to my prosperity.

NAGARJUNANAGAR

DECEMBER - 1988

(B.RE. VICTOR BABU)
