ACKNOWLEDGEMENTS
ACKNOWLEDGEMENTS

I have no words to express my deepest sense of gratitude to Dr. R.P. Tripathi, M.S., Lecturer in the Department of Orthopaedics Surgery, M.L.B. Medical College, Jhansi, under whose able guidance and supervision I had opportunity to carry out this work. He has been a source of constant inspiration and encouragement throughout this study. The present work has taken its shape largely due to his wise consults, concrete and constructional suggestions.

Thanks to Dr. D.K. Gupta, M.S., Lecturer in Orthopaedics Surgery for his efficient guidance. Dr. Gupta was a source of constant inspiration for me. He did not hesitate to help me even in odd hours. To call a spade this work is a gift of him in the form of quite constricitive detailed guidance, without which it would have remained a farce.

I am sincerely thankful to Dr. P.K. Dabral, M.S., Professor and Head of the Department of Orthopaedics Surgery, M.L.B. Medical College, Jhansi, for his kind aquisience to perform this work in the department of Orthopaedics Surgery.
I am highly thankful to I.C.R.H.R. who supported me financially, making this study possible.

I am highly obliged to my wife Savita, who has helped me tremendously throughout this work.

I am further thankful to my friend Dr. Harendra, who helped me at every step.

I dedicate this work to my parents, who were the source of inspiration and solace to me in the execution of this task.

I am also thankful to Mr. K.M. Thomas who has assiduously typed these pages.
