ACKNOWLEDGEMENT

One is confronted with a great difficulty when words find themselves unable to express what one feels in the depth of one's heart.

Same situation paralyses my thoughts when I find no words in the literature to express my deep sense of gratitude and humble thanks to my esteemed and learned teacher Dr. U.C. Sharma, M.D., D.A., Reader, Department of Anaesthesiology, M.L.B. Medical College, Jhansi, whose constant encouragement and able guidance gave me strength and vigour to stand this difficult task of mine and without whose brotherly affection and sympathetic attitude this work would have remained a thing of the dream.

No words I have to record my sincere thanks to Dr. D.D. Varma, M.D., D.A., Lecturer in Anaesthesiology, M.L.B. Medical College, Jhansi, whose time to time advise came a long way towards the progress of this study.

Needless to say anything for Dr. Pradeep Sahi, M.D., D.A., Lecturer in Anaesthesiology whose inspirations and advises have always shown like a brilliant sun throughout my dark path to progress. The present study carries at every stage the glittering imprint of his dynamic personality, his meticulous attention, reasoned criticism, constant skilled and
scholasticism went a long way in materializing this work in its presentable form.

Words can not be said nor can they be written for the obligations and indebtedness I owe towards Professor B.C. Joshi, M.D.,D.A., Head of the Department of Anaesthesiology for his kind and passionate advises and help.

My thanks are always due to all my colleagues and friends who in spite of all their busy schedule found time to help me at various stages of this work.

Anything I write would be less to convey my heartiest thanks to Dr. S.L. Srivastava, Dr. Chitra Tyagi and Dr. A.Kumar whose affection, advises and encouragement have always helped me cross all hurdles.

I have no words to express my gratitude to my family members for their constant moral support in the dreaded days of overwork and for extending a helpful hand beyond all limits and expectations.

It would not be out of place to extend my thanks to Mr. A.K. Kulshreshtha and Mr. Siddiqui Ali, without whose help this work would not have attained its final shape, every line bears his deep interest.

To all of you I can say nothing but "THANKS".
