# CONTENTS

List of Figures
List of Tables
List of Abbreviations

1. INTRODUCTION
   1.1 Optical Character Recognition (OCR)
      1.1.1 Types of OCR
      1.1.2 Data collection
      1.1.3 Pre-processing
      1.1.4 Segmentation
      1.1.5 Feature extraction
      1.1.6 Classification
   1.2 Literature Review
   1.3 Motivation for the present work, Problem statement
   1.4 Organization of the Thesis

2. OBJECTIVES AND PROPOSED SYSTEM
   2.1 Objectives
   2.2 Description of the proposed system for Handwritten Marathi word recognition

3. DEVELOPMENT OF A DATABASE OF HANDWRITTEN MARATHI WORDS, ISOLATED CHARACTERS AND PREPROCESSING
   3.1 Introduction
   3.2 Marathi characters
   3.3 Formation of Marathi words
   3.4 Database Development
      3.4.1 Database development for handwritten Marathi simple words
      3.4.2 Database development for handwritten...
Marathi compound words

3.4.3 Database development for isolated handwritten Marathi characters

3.5 Pre-processing

4. SEGMENTATION
   4.1 Introduction
   4.2 Segmentation and Difficulties in Segmentation
   4.3 Segmentation Methodology for simple words
   4.4 Segmentation methodology for compound words
   4.5 Discussion of Results
   4.6 Analysis Of Results

5. MULTILEVEL CLASSIFICATION
   5.1 Introduction
   5.2 Multilevel Classification
   5.3 Discussion of Results

6. FEATURE EXTRACTION
   6.1 Introduction
   6.2 Zone based symmetric density feature
   6.3 Diagonal, Horizontal and Vertical features
   6.4 Normalized chain code feature
   6.5 Invariant moment feature
   6.6 Zernike moment feature
   6.7 Discrete wavelet transform

7. CLASSIFICATION AND RESULTS
   7.1 Introduction
   7.2 Support Vector Machine Classifier
   7.3 k-NN Classifier
   7.4 Discussion of Results

8. SUMMARY AND CONCLUSIONS
8.1 Conclusions ... 123
8.2 Scope for further research ... 133
