

TABLE OF CONTENTS

	CONTENT	PAGE No.
	• Acknowledgement	i - iii
	• Abstract	iv - x
	• Table of contents	xi - xiv
	• List of Tables	xv - xvii
	• List of Figures	xix - xx
	• List of Appendices	xxi
CHAPTER	INTRODUCTION	1 - 33
I		
	• Background of the study	2 - 10
	• Need for the study	11 - 16
	• Statement of the problem	17
	• Objectives of the study	17
	• Operational definitions	18 - 20
	• Research Hypotheses	21
	• Delimitations	21 - 22
	• Conceptual framework	23 - 32
CHAPTER	REVIEW OF LITERATURE	34 - 75
II		
	• Literature related to childbirth education	35 - 46
	• Literature related to the knowledge of pregnant women regarding labour and childbirth preparedness	46 - 51
	• Literature related to prenatal care and variables that influence childbirth	51 - 57
	• Literature related to the effectiveness of child birth education	57 - 70
	• Literature related to the effectiveness of structured video assisted education/teaching programme	70 - 74

• Summary	74 - 75
CHAPTER RESEARCH METHODOLOGY	76 - 105
III	
• Research Approach	76
• Research Design	77 - 79
• Variables under study	80
• Setting of the study	81
• Population	81
• Sample and Sample size	82 - 83
• Sampling technique	84
• sampling criteria	84
• Data collection tool and techniques	85 - 88
• Development & Description of tool	88 - 92
• Description of the treatment	93 - 94
• Content validity	95
• Reliability	96
• Pilot study	97
• Procedure for data collection	98 - 104
• Plan for data analysis	104 - 105
• Summary	105
CHAPTER ANALYSIS AND INTERPRETATION OF DATA	106 - 166
IV	
• Section-I:	111 - 114
Description of the samples (primigravida mothers) according to their demographic characteristics	
• Section-II:	115 - 121
Findings related to the knowledge score of primigravida mothers in control and experimental group regarding labor process and child birth preparedness	

<u>Section II.a -</u>	
Findings related to the PRETEST knowledge score of primigravida mothers in experimental & control group.	116-118
<u>Section-II.b -</u>	
Findings related to the POSTTEST knowledge score of primigravida mothers in experimental group & control group	119-121
• Section-III:	122 - 133
Findings related to the effectiveness of video assisted child birth education programme on knowledge.	
• Section IV:	134 - 147
Findings related to the intra-partum behavior of the primigravida mothers	
<u>Section IV.a:</u>	
Findings related to the intra-partum behavior of the primigravida mothers in experimental and control group at the time of reporting to the labour room	134-138
<u>Section IV.b:</u>	
Findings related to the intra-partum behavior of the primigravida mothers in experimental and control group during all the four stages of labour	139-147
• Section V:	148 - 163
Findings related to maternal and foetal outcome in experimental and control groups	
<u>Section V a:</u>	
Findings related to comparison of maternal outcome in experimental and control groups	148-158

	<u>Section V b:</u>	
	Findings related to comparison of fetal outcome in experimental and control groups	159-163
	• Section VI:	164 - 165
	Findings related to association of the knowledge with selected demographic variables	
	• Summary	166
CHAPTER	SUMMARY, MAJOR FINDINGS, CONCLUSIONS, DISCUSSIONS, IMPLICATIONS, LIMITATIONS AND RECOMMENDATIONS	167 - 199
v		
	• Summary of the study	167 - 171
	• Major findings of the study	171 - 181
	• Conclusions	181 - 183
	• Discussions	183 - 190
	• Implications	190 - 197
	• Limitations	197
	• Recommendations	198 - 199
	• Summary	199
	REFERENCES	200 - 213
	APPENDICES	214 - 291
