CHAPTER I : INTRODUCTION

Preamble; Geomedical Approach. Research Design; Objectives, Data Base, Methodology - Areal Units, Cartographic Techniques. Statement of the Problem; The Study Area Profile.

CHAPTER II : THEMATIC PERSPECTIVE

Conceptual Background; An Interdisciplinary Approach. Chronological Assessment; International Platform - Progress During Fifties, Progress During Sixties, Progress During Seventies, Progress During Eighties, Indian Platform - Progress During Sixties, Progress During Seventies, Progress Eighties. Attributive Appraisal; Incidence and Distribution of Diseases, Disease Ecology, Diet and Nutrition, Community and Social Medicine, Health Care Delivery, Cartographic and Statistical Techniques.

CHAPTER III : GEOMEDICAL PURSUITS OF PHYSICAL SETTING

CHAPTER IV : GEOMEDICAL PURSUITS OF CULTURAL SETTING

CHAPTER V : ECOLOGY AND DISTRIBUTION OF DISEASES

Ecology of Disease; Classification of Diseases, Deficiency of Diseases - Avitaminosis A, Anaemia, Rickets and osteomalacia, Teeth and Gum Diseases, Arthropodal and Helminthic Diseases - Arthropodal Diseases - Malaria, Filariasis, Helminthic Diseases, Communicable Diseases - Gastro-enteritis, Dysentery and Diarrhoea, Enteric Fever, Infections Hepatitis, Whooping Cough, Tuberculosis, Measles, Venereal Diseases, Leprosy, Non Communicable Diseases - Cancer and Cardiovascular Diseases, Distribution of Diseases; Spatial Distribution of Diseases - Temporal Distribution of Diseases, Ranking of Diseases, Disease Combination, Disease Zonation, Disease Zones, Intensity Zones.
CHAPTER VI : SPATIAL DISTRIBUTION OF HEALTH CARE FACILITIES

CHAPTER VII : GEOMEDICAL REGIONALIZATION

Geomedical Well-being; Methodological Approach, Variation Pattern of Variables and Degree of Relatedness, Principal Components - Characteristics of Principal Components, Spatial Pattern of Geomedical Well-being, Geomedical Regions; Grouping of Areal Units, Association of Geomedical Characteristics, Geomedical Regions and Associative characteristics.

CHAPTER VIIl : PLANNING PROJECTION

Diseases; Malaria Eradication Programme, Filaria Control Programme, Leprosy Control Programme, Blindness Control Programme. Integration of Medicine Systems. Health Education. Economics of Health Care Facilities.
